The service should be developed and evaluated by people who use its services and the local community, to ensure it becomes a valuable asset that enables people to recover from their episode of mental ill health and encourages resilience in the local population:

- to provide a safe, welcoming and comfortable service away from a clinical environment for people in crisis, and those seeking to prevent the onset of a crisis,
- to meet the needs of individuals experiencing acute emotional distress associated with a mental health problem (which may or may not have been given a formal diagnosis) with the aim of drawing on strengths, resilience and coping mechanisms to reduce the need to use crisis services in the future,
- to support individuals to reduce their immediate crisis and anxiety, and to formulate a safety plan, drawing on strengths, resilience and coping mechanisms to reduce the need to use crisis services in the future,
- to offer a multi-disciplinary team (MDT) approach to individual need, to ensure needs are responded to by appropriate services to further help the individual to build resilience. It is expected that there will be a full range of services provided at The Haven by a full range of organisations through a multi-agency approach.
