II.2.4. Description of the procurement

Karmøy municipality has many submarine water pipelines, both large and small, in the ocean and in fresh water.

The municipality also has many submerged sewage pipelines, both non-pressurised discharge pipelines and pressurised pump pipelines.

To meet the need for emergency preparedness and delivery security for the waterworks, Karmøy municipality now wants to establish a framework agreement with a tenderer for the purchase of diver services and submarine inspection assignments.

Typical services will be:

- Inspection of water pipelines/sewage pipelines
- Repair works on submarine pipelines, i.e. repairs on site under water or repairs where pipelines are brought to the surface
- Raising or removal of submarine pipelines
- Sinking and weighting of submarine pipelines
- Purification of intake and pipelines

It is anticipated that there will be between 15 and 20 diving assignments per year.
