Address of the buyer profile: <https://eu.eu-supply.com/ctm/Company/CompanyInformation/Index/269437>

I.6. Main activity

Production, transport and distribution of gas and heat

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Lot E2: Wood chips boiler island to DIN Forsyning Varme A/S

II.1.2. Main CPV code

45251200 Heating plant construction work

II.1.3. Type of contract

Works

II.1.4. Short description

The Tender describes the need for a new boiler island incl. an external economizer.

The tender is conducted as a public procurement under Article 45(3) of the Utilities Directive, Directive 2014/25/EU of 26. February 2014, with a shortened tender deadline, due to urgency.

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.2. Additional CPV code(s)

45251000 Construction works for power plants and heating plants, 42160000 Boiler installations

II.2.3. Place of performance

NUTS code: DK032 Sydjylland

Main site or place of performance: Esbjerg

II.2.4. Description of the procurement

DIN Forsyning Varme A/S in Esbjerg, Denmark is in the process of replacing the heat delivered from the existing coal fired power station (ESV3) which is currently planned for decommissioning 1st quarter of 2023.

DIN Forsyning Varme A/S has decided to establish new base load production capacity to replace the heat previously purchased from Ørsted A/S with new heat production facilities to be located in harbour area close to the existing peak load plant City Centralen and existing heat accumulator tank and distribution pumps.

There will be established 60MW wood chips fired boiler line, 50MW heat pump and 40MW of electrical boiler.

The Contract Agreement is based on Green FIDIC SHORT FORM of Contract First Edition 1999.

DIN Forsyning Varme A/S intends to enter the Contract with one Contractor for the delivery of the wood chip fired boiler island.

The Tender describes the need for a new boiler island incl. an external economizer. The pressure part was originally set to be included in the Works by the selected Contractor to Lot E. However, since the selected Lot E Contractor failed to deliver a pressure part in compliance with the valid norms and standards, the Employer has been forced to ask for the pressure part elsewhere. Hence, this Works consist of the pressure part only based on the specifications relevant for the pressure part and the Works consequential relevant for the purpose of replacing the defect pressure part is referred to as Lot E2.

The Employer thus asks for a new pressure part (incl. external economizer) within the battery limits and according to the requirements as specified within Annex 2 of the call for tender material. The Tenderers shall bear in mind that given the experiences encountered to date, the Employer will play special attention to that the quality requirements according to the PED are fulfilled. – Also, special focus as to fulfillment of the needed performance can be attained in a similar configured/sized pressure part within the confinements of the Employer's layout design will be an important assessment factor of the Employer.

The technical requirements for the wood chip fired boiler island are described in more detail in Annex 2: Employer's Technical Requirements and its sub-schedules.

II.2.5. Award criteria

Quality criterion - Name: Technical solution / Weighting: 35

Quality criterion - Name: Project solution / Weighting: 30

Price - Weighting: 35

II.2.11. Information about options

Options: no

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

The tender is conducted as a public procurement under Article 45(3) of the Utilities Directive, Directive 2014/25/EU of 26. February 2014, with a shortened tender deadline, due to urgency.

IV.2.9. Information about termination of call for competition in the form of a periodic indicative notice

Section V: Award of contract

Contract No: 1

Title:

Lot E2: Wood chips boiler island to DIN Forsyning Varme A/S

A contract/lot is awarded: yes

V.2. Award of contract

V.2.1. Date of conclusion of the contract

27/06/2022

V.2.2. Information about tenders

Number of tenders received: 1

Number of tenders received from SMEs: 0

Number of tenders received from tenderers from other EU Member States: 0

The contract has been awarded to a group of economic operators: no

V.2.3. Name and address of the contractor

Official name: Babcock & Wilcox Renewable Energy Service A/S

Postal address: Energivej 16

Town: Holsted

NUTS code: DK032 Sydjylland

Postal code: 6670

Country: Denmark

The contractor is an SME: no

V.2.4. Information on value of the contract/lot

V.2.5. Information about subcontracting

V.2.6. Price paid for bargain purchases

Section VI: Complementary information

VI.3. Additional information

The deadline for submitting final tender was 22 April 2022. After this deadline DIN Forsyning Varme A/S only received one tender which was declared as non-conditional. Since no suitable tenders have been submitted in response to the public procedure in accordance with the procedure laid down in Art. 45 in The Utilities Directive, Directive 2014/25/EU of 26. February 2014, DIN Forsyning Varme A/S used a negotiated procedure without prior call for competition as laid down in Art. 50 in The Utilities Directive, Directive 2014/25/EU of 26. February 2014. Based on the negotiations the tenderer was asked to submit tender at the latest 6 May 2022 and based on the received tender the contract was assigned.

VI.4. Procedures for review

VI.4.1. Review body

Official name: Klagenævnet for Udbud

Postal address: Toldboden 2

Town: Viborg

Postal code: 8800

Country: Denmark
