---

**II.1. Description****II.1.1. Title**

Development and design of a structural model for the construction and implementation of an EU OSH information system.

**II.1.2. Type of contract and place of performance or delivery**

Services

Service category No 11: Management consulting services [6] and related services

Main site or place of performance: The contractor's premises or any other site advised in the tender, but not on the Commission's premises.

NUTS code

**II.1.3. Information about a framework agreement or a dynamic purchasing system (DPS)****II.1.4. Short description of the contract or purchase(s)**

The purpose of the project is:

a) to provide a model description of national OSH systems in the form of a functional set of interrelated structural elements and relevant indicators.

The model should be conceived as a grid to gather and categorise information from different sources on EU Members States' OSH systems, with a view to establishing a comprehensive profile of the EU OSH situation.

Also, the model should allow for comparison on OSH performances across Member States, based on a set of qualitative and quantitative indicators, with a view to establishing a permanent tool to monitor and compare national achievements in the area of occupational safety and health, including the implementation of the current EU strategic framework on health and safety at work 2014–2020;

b) to ensure the implementation of the model through the collection, categorisation and inclusion of relevant OSH information into an ICT-based platform developed and managed by the European Agency for Safety and Health at Work (EU-OSHA).

#### **II.1.5. CPV code(s)**

73300000 Design and execution of research and development, 79320000 Public-opinion polling services, 79415200 Design consultancy services
