II.2.4. Description of the procurement

The opportunity can be accessed via the NEPO eTender system. Suppliers wishing to be considered for this contract must register their expression of interest and submit a tender through the NEPO eTender system. If not already registered, candidates should register on the NEPO eTender system at <https://procontract.due-north.com/register?openform>. Any queries regarding the procurement process or tender documents must be raised no less than 7 days before the tender return date, through the Q&A section on the NEPO eTender system. For any support in submitting your expression of interest or tender response, please contact the NEPO Portal helpdesk at +44 1912613940 or portal@nepo.org. There are a number of help guides available on the portal. Reading these will assist the supplier in completing and submitting their responses.

In order to be appointed to this Framework Contract, following evaluation suppliers must be ranked 1–6. Successful suppliers will enter into a Framework Agreement in a form which is set out in the procurement documents.

The Council does not give any guarantee and/or warrant the actual value of the goods /services (if any) which will be placed with the successful suppliers by any client using the Framework Contract pursuant to this process and accepts no liability thereof. Pre Qualification submissions are invited from suitably qualified and experienced consultancy businesses who can meet the requirements under any of the above lots as a whole. Applications from businesses who cannot meet the entire scope of a particular lot through either directly employed expertise or as part of their sub consultancy network will not be considered. Pre Qualification submissions are invited from suitably qualified and experienced consultancy businesses who can meet the requirements under any of the above lots as a whole. Applications from businesses who cannot meet the entire scope of a particular lot through either directly employed expertise or as part of their sub consultancy network will not be considered.

The Framework will enable sufficiency of skilled resources to match peaks in workload, provide expertise in areas where skills are not provided in-house, facilitate benchmarking of costs to demonstrate best value and to drive service improvement through innovation and efficiency. Successfully awarded suppliers will be required to work together with NEPO, Client departments, other consultancy firms and contractors to drive improvements and support the aims and ambitions of the NEPO Construction Category.

Where the scope of the services are clearly defined and the Contracting Authority Employer has decided that the works can be evaluated using information submitted within the tender the Contracting Authority Employer can award directly to the Consultant that offers the most economically advantageous offer based on the requirements of the ITT.

Where it is not possible to determine the award of specific call-off contract under direct call off then Contracting Authorities may decide to run a mini competition within a specific lot, inviting all Consultants within that specific lot capable of performing the contract. The criteria for evaluations at the mini competition stage will be detailed within the documentation issued at mini competition stage. Please note that the framework evaluation criteria will not be amended, however the weightings applied to the criteria may differ as outlined below.

Pre Qualification submissions are invited from suitably qualified and experienced consultancy businesses who can meet the requirements under any of the above lots as a whole. Applications from businesses who cannot meet the entire scope of a particular lot through either directly employed expertise or as part of their sub consultancy network will not be considered.

The Framework will enable sufficiency of skilled resources to match peaks in workload, provide expertise in areas where skills are not provided in-house, facilitate benchmarking of costs to demonstrate best value and to drive service improvement through innovation and efficiency. Successfully awarded suppliers will be required to work together with NEPO, Client departments, other consultancy firms and contractors to drive improvements and support the aims and ambitions of the NEPO Construction Category.

Where the scope of the services are clearly defined and the Contracting Authority Employer has decided that the works can be evaluated using information submitted within the tender the Contracting Authority Employer can award directly to the Consultant that offers the most economically advantageous offer based on the requirements of the ITT.

Where it is not possible to determine the award of specific call-off contract under direct call off then Contracting Authorities may decide to run a mini competition within a specific lot, inviting all Consultants within that specific lot capable of performing the contract. The criteria for evaluations at the mini competition stage will be detailed within the documentation issued at mini competition stage. Please note that the framework evaluation criteria will not be amended, however the weightings applied to the criteria may differ as outlined below.

The Framework will enable sufficiency of skilled resources to match peaks in workload, provide expertise in areas where skills are not provided in-house, facilitate benchmarking of costs to demonstrate best value and to drive service improvement through innovation and efficiency. Successfully awarded suppliers will be required to work together with NEPO, Client departments, other consultancy firms and contractors to drive improvements and support the aims and ambitions of the NEPO Construction Category.

Where the scope of the services are clearly defined and the Contracting Authority Employer has decided that the works can be evaluated using information submitted within the tender the Contracting Authority Employer can award directly to the Consultant that offers the most economically advantageous offer based on the requirements of the ITT.

Where it is not possible to determine the award of specific call-off contract under direct call off then Contracting Authorities may decide to run a mini competition within a specific lot, inviting all Consultants within that specific lot capable of performing the contract. The criteria for evaluations at the mini competition stage will be detailed within the documentation issued at mini competition stage. Please note that the framework evaluation criteria will not be amended, however the weightings applied to the criteria may differ as outlined below.
