II.1.4. Information about framework agreement

II.1.5. Short description of the contract or purchase(s)

The purpose of the evaluation is to improve accountability of Finland's support to humanitarian mine action and to serve strategic planning and decision making needs in the MFA. The evaluation is expected to bring forward issues and lessons learned and make innovative but practical and concrete recommendations on e.g. regional and thematic scope and selection criteria for partners. The recommendations will help the MFA to make informed decision regarding the future orientation and funding of the humanitarian mine action in the changing global context after the current Framework Agreements will come to an end.

The evaluation will also inform the general public, parliamentarians, academia, and development professionals outside the immediate sphere of the decision-makers in development policy of what has been achieved by the use of public funds.

The objective of the evaluation is to assess the achievements, contributions, strengths and weaknesses of Finland's support to humanitarian mine action. The evaluation will provide an overall independent assessment on the humanitarian mine action supported by Finland in relation to effectiveness, efficiency, relevance, sustainability and impact as well as the implementation of the UN Resolution 1325 in humanitarian mine action.

The evaluation covers multilateral and NGO cooperation (including Finnish and international NGOs and foundations). The evaluation will also cover the possible links between humanitarian mine action and international political processes regarding anti-personnel mines and other explosive remnants of war.

The temporal scope of the evaluation is 1991-2014. However, the main focus is in the period of 2010-2014.
