Body governed by public law

I.3. Main activity

Health

I.4. Contract award on behalf of other contracting authorities

The contracting authority is purchasing on behalf of other contracting authorities: no

Section II: Object of the contract

II.1. Description

II.1.1. Title attributed to the contract by the contracting authority

Procurement 2015 — Digital x-ray lab. Kristiansund and Ålesund hospitals.

II.1.2. Type of contract and place of performance or delivery

Supplies

Purchase

Main site or place of performance: Kristiansund, Ålesund.

NUTS code NO053 Møre og Romsdal

II.1.3. Information about a framework agreement or a dynamic purchasing system

The notice involves a public contract

II.1.4. Information about framework agreement

II.1.5. Short description of the contract or purchase(s)

The tender applies to the procurement of one complete x-ray laboratory with an adapted generator and a work station for Kristiansund Hospital. Option for delivery of equivalent equipment to Ålesund Hospital.

The delivery shall include a wall bucky, ceiling racks and 3 wireless detectors.

The equipment for Kristiansund Hospital shall be procured within the end of 2015, and the equipment to Ålesund Hospital shall be procured during the first quarter of 2016.

The contracting authority also requests an option for the delivery of additional x-ray tubes with required accessories to Kristiansund Hospital. Due to allocations it is very uncertain when this option is released.

X-ray tube no. 2 to the emergency lab in Kristiansund is expected to be used in connection with a RSA (Radiostereometric analysis) hip project.

The contracting authority wants to know if these deliveries are feasible. To put it simply, the contracting authority must have 2 tubes with options to take pictures with both tubes simultaneously (pictures of hips) — The contracting authority requests software and a generator that can handle this.

In addition, the contracting authority considers a more robust suspension for possibly 2 tubes and any structural measures in relation to this.

In the assessment, the 2 complete laboratories shall be included. This does not apply to the additional tube to Kristiansund Hospital.

Otherwise, the delivery must be inclusive of all components/accessories, assembly/installation and commissioning so that it functions as a whole based on the needs and requirements described.

Provision of the required training for all personnel who work in the affected units must be included.

The tender also covers the provision of services — and maintenance agreements where it will be important to clarify the need for service — and maintenance, and to clarify the annual operating costs expected after the warranty expires. Additionally, relevant technical courses.

The Contracting Authority uses Mercell Sourcing Service. To express your interest and gain access to any documents, please click on the link below or copy and paste the link into your browser. (<http://permalink.mercell.com/53352614.aspx>). Then follow the instructions on the website.

II.1.6. CPV code(s)

33111800 Diagnostic X-ray system
