## **Type of contract**

Works

### **II.1.4. Short description**

Stange Municipality would like to establish new infrastructure for the development of the new urban development Åkersvika Hageby by Åkersvika near Mjøsa. The project covers both clearance and new water and sewage installations, the establishment of new roads and footpaths, as well as the re-establishment of existing roads and paths, routes for district heating and waste suction, and opening up Tunbekken.

The estimated value of the project is set between NOK 120 million - NOK 130 million.

For further information on the project and contract work, see part II - The tender documentation.

### **II.1.5. Estimated total value**

Value excluding VAT: 130 000 000,00 NOK

### **II.1.6. Information about lots**

This contract is divided into lots: no

## **II.2. Description**

### **II.2.3. Place of performance**

NUTS code: NO020 Innlandet

Main site or place of performance: Stange Municipality

The procurement is related to a project and/or programme financed by European Union funds:  
no

### **II.2.14. Additional information**

## **Section III: Legal, economic, financial and technical information**

---

### **III.1. Conditions for participation**

#### **III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers**

List and brief description of conditions:

Tenderers must be registered in a company register, professional register or a trade register in the country where the tenderer is established.

#### **III.1.2. Economic and financial standing**

List and brief description of selection criteria:

Tenderers must have sufficient economic and financial capacity to fulfil the contract as well as any options.

Minimum level(s) of standards possibly required:

Credit rating, not older than 6 months.

If the accounting figures are not stated in the credit rating they must be attached.

#### **III.1.3. Technical and professional ability**

List and brief description of selection criteria:

Tenderers must have satisfactory procedures for quality assurance.

Tenderers are required to have a well-functioning environmental management system, or be certified for environmental management, or can document a well-functioning environmental management system.

Tenderers must have experience from the execution of comparable assignments.

Tenderers must have the technical and professional qualifications to fulfil the contract.

Minimum level(s) of standards possibly required:

A description of the tenderer's quality assurance methods.

If a tenderer is certified in accordance with ISO 9001 or equivalent standard, it is sufficient to present a copy of a valid certificate.

A description of the tenderer's environment management system.

Alternatively a copy of an attestation or certificate confirming the tenderer's environment management system, for example EMAS, ISO 14001 or the Eco-lighthouse scheme (Norwegian: Miljøfyrtårn). Other certificates issued by bodies in other EEA countries can also be presented, provided that the tenderer can document that these are equivalent to EMAS, ISO 14001 or Eco-lighthouse.

A list with an overview of the 3-5 most relevant assignments in the last 5 years.

Central certification or verified competence as stated in SAK chapter 11 or equivalent, in the UTF development class in the defined certification areas.

Certificates: ADK/certificate of apprenticeship as a site plumber.
