I.2. Type of the contracting authority

Ministry or any other national or federal authority, including their regional or local subdivisions

I.3. Main activity

General public services

I.4. Contract award on behalf of other contracting authorities

The contracting authority is purchasing on behalf of other contracting authorities: no

Section II: Object of the contract

II.1. Description

II.1.1. Title attributed to the contract by the contracting authority

E18 Varodd bridge.

II.1.2. Type of contract and place of performance or delivery

Works

Execution

Main site or place of performance: Kristiansand.

NUTS code NO Norge

II.1.3. Information about a framework agreement or a dynamic purchasing system

The notice involves a public contract

II.1.4. Information about framework agreement

II.1.5. Short description of the contract or purchase(s)

The project E18 Varodd bridge is situated on the E18 just east of the centre of Kristiansand and it crosses Topdalsfjorden. The new bridge (Varodd bridge south) shall be constructed as a cantilever bridge (FFB) and it shall be constructed between the two existing bridges, which are a suspension bridge from 1956 (Varodd bridge (1956)) and a cantilever bridge from 1994 (Varodd bridge (1994)). A new foot and cycle path system shall also be constructed and Varodd bridge (1956) shall be demolished. The new Varodd bridge south must first be built with a reduced cross section on part of the length, and then completed after that Varodd bridge (1956) has been demolished.

The E18 must maintain its dual carriageway throughout the construction site area for the entire construction period. A foot and cycle path system shall also be maintained throughout the entire construction period.

The current E18 has an annual daily traffic count of approx. 50 000.

This is a model based assignment in accordance with the Norwegian Public Roads Administration's hand book R760.

Brief description of the assignment:

- Alteration, new construction of the E18 eastbound and westbound lanes with the adjoining local roads/ramps, including signs, water and sewage and electro.
- Footpath systems locally at Søm and Varodd, including signs, water and sewage and electro.
- Terrain measures for the construction of roads and bridges, including dry walls of natural stone.
- Construction of Varodd bridge south.
- Construction of 3 foot/cycle path bridges: Varodden, Sømlandet down and Sømlandet up.
- Alterations to a culvert in Narviga: Varen.
- Alterations to covers, railings, signs and lighting on Varodd bridge (1994).
- Demolition of Varodd bridge (1956), culvert at Søm and steps to Vardåsen.
- Alterations of municipal water and sewage installations at Søm.
- Construction of noise reduction screen.

II.1.6. CPV code(s)

45000000 Construction work, 45221111 Road bridge construction work

II.1.7. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

II.1.8. Lots

This contract is divided into lots: no

II.1.9. Information about variants

Variants will be accepted: no

II.2. Scope of the procurement

II.2.1. Total quantity or scope

See the tender documentation.

II.2.2. Information about options

Options: no

II.2.3. Information about renewals

This contract is subject to renewal: no

II.3. Duration of the contract or time limit for completion

Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract

III.1.1. Deposits and guarantees required

See the tender documentation.

III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

See the tender documentation.

III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

See the tender documentation.

III.1.4. Contract performance conditions

The performance of the contract is subject to particular conditions: no

III.2. Conditions for participation

III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions: — Tax and VAT certificate, not older than 6 months from the deadline for receipt of tenders.

— Tenderers shall have a system and routines that ensure that the HSE work is operated in a systematic manner in accordance with the internal control regulations, cf. the confirmation in the E5 tender form.

— The average of the H1-value for the last 3 years ought to be lower than 10. If the tenderer is a working partnership, the requirements apply for each of the participants.

III.2.2. Economic and financial ability

List and brief description of conditions: — It is a requirement that the tenderer's equity is positive. If the tenderer is a working partnership, the requirement applies for each participant. Documentation of equity is to be provided with the tender.

— The tenderer's annual average turnover should be at least as large as the annual revenues the contract will generate. Documentation of turnover for the last 3 years should be submitted the tender.

III.2.3. Technical and professional ability

List and brief description of conditions:

— The tenderer shall have experience from work of the same nature and degree of difficulty. Information on such will be sent with the offer.

— The tenderer is required to show references to relevant contracts that they themselves have carried out in a satisfactory manner. Information on contracts that the tenderer has had in the last few years, with names of references at the contracting authority, shall be enclosed with

the tender.

— Technical and professional competency and relevant experience is required of the key personnel who will be used for this assignment. The following personnel are defined as key personnel:

- Project manager;
- Site managers;
- Foremen;
- HSE manager.

Documentation shall be submitted that shows competence and experience.

— Organisation of the implementation of the contract requires sufficient manpower and that the tenderer has sufficient capacity and ability to manage unexpected contractual conditions. A statement of how the tenderer will organise the implementation of the contract shall be enclosed with the tender.
