Value excluding VAT: 3 786 000,00 NOK

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.3. Place of performance

NUTS code: NO0A2 Vestland

II.2.4. Description of the procurement

The Contracting Authority is Bergen Vann KF (execution in Bergen and Bjørnarfjorden Municipalities) and Bergen Municipality, Agency for Urban Environment (execution mainly in the centre of Bergen).

The Agency for Urban Environment

The Agency for Urban Environment has a broad spectrum of assignments and competence, including within nature management, city development, parks, roads, cycles, mobility, parking, sanitation, and management of landfills.

The Agency for Urban Environment negotiates and implements development contracts, and constructs public infrastructure such as roads, urban areas, pavements, playgrounds and squares. Responsibility for managing, operating, and maintaining municipal parks, roads, urban areas, recreational areas, and municipal woods, and monitoring parking provisions on public roads and streets. Operation and maintenance of Fisketorget.

Both Contracting Authority reserve the right to carry out supplier audits.

The procurement:

The procurement is for pest control services for rats and mice in Bergen Municipality (mainly) and Bjørnarfjorden Municipality.

The procurement consists of the hire and operation of traps. The traps are to be localised both above and below ground level. Traps located in tunnels without internet access need a communication system.

New traps are to be assembled and existing traps are to be moved if required. Traps can also be moved due to work in the area. Reporting results. Work for Bergen Vann KF can require contact with sewage water.

The current traps

Bergen Vann KF (Bergen Water)

— 70 traps, mainly in sewage manholes in the centre of Bergen;

— 15 traps at sites (including a communication system with 3 traps in a tunnel at Flesland Treatment Plant).

The Agency for Urban Environment

— 15 traps in 11 outside areas.

The number of traps and locations can be changed over time.

Site inspection

Contact the Contracting Authority if you would like a site inspection before the tender deadline.

Manholes

The manholes vary in dimension and have an acidic environment.

HSE.

Tenderers must always comply with Bergen Vann's HSE procedures. All those who work with sewage water must be vaccinated against: Tetanus, Polio, and Hepatitis A (Havrix). Any protection equipment must be covered by the tenderer.

Experiments

If a tenderer would like to carry out their own relevant experiments, at their own expense, an agreement can be made with the contracting authority's contact person in advance for access to locations.

Regulations

The tenderer must follow the Regulations on Pest Control Services: <https://lovdata.no/dokument/SF/forskrift/2000-12-21-1406>

Start-up meeting

- the tenderer will have access to the Gemini portal (digital mapping tool), where the contracting authority will place its orders;
- review of HSE procedures and vaccines;
- access to locations;
- invoicing the Agency for Urban Environment;
- miscellaneous.
