2.1. Procedure

Title: Procurement - Crushed stone, gravel and stone masses (2), 2026

Description: The contracting authority would like to use this procurement to enter into a framework agreement with one tenderer per part. The difference between the parts is only the geographical area that the contract applies to and that sand is only included in Part 1. The aim of the contract is to cover the contracting authority's need for crushed stone, gravel and rock masses in accordance with the requirement specification. It is a prerequisite that the tenderer has sufficient capacity to cover the customer's needs at all times, in a satisfactory manner. Tenderers shall always have a sufficient storage level with crushed stone, gravel and rock masses to handle this contract. This means that the tenderer shall not run out of contract products at the tenderer's storage/sales place during the contract period. The range of use of the contract products is broad; roads, ditches, re-filling masses etc. There will be information on retrieval when the need arises. The types/fractions that tenders shall be submitted for are stated in the price form.

5.1.10. Award criteria

Criterion:

Type: Price

Name: Price Sub area 1

Description: Orientation: Tenderers shall fill in the attached price form in their cost calculations and submit it as an annex to the tender in Excel format. All fields in the attached price form marked with yellow shall be completed. Missing the price fields can cause difficulties in assessing the tender and the tender can then be rejected. All prices are in NOK, excluding VAT, including all direct or indirect expenses and duties that could be incurred in connection with the delivery. Order fees and invoice fees are to be seen as expenses. The prices shall include all costs for the customer who is included in this competition, including the procurement commission. Costs that the tenderer knows will be incurred, but that are not specifically stated in the tender, will be seen as included in the stated costs. If product lines in the price form are submitted blank/not filled in, they will be filled in with the highest unit price offered for this product line + 10%. If more than 5% of the product lines lack a price indication, it will be seen as a significant deviation and lead to a tender being rejected in its entirety. The volume stated in the price form is only an estimate and it will be used for a price comparison in the evaluation. The volume is not binding for the contracting authority.

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 60

Criterion:

Type: Quality

Name: Quality Sub area 1

Description: Orientation: Under this criteria: •The tenderer's account of the storage capacity and a description of how it is intended to cover the municipality's need for lump/frost free sand 2/6 mm throughout the winter period. The response shall be on a maximum of 1 A4 side. The response shall not include a cover page or table of contents. Any pages after page 1 will not be evaluated. Any links etc. in the reply will not be evaluated.

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 10

Criterion:

Type: Quality

Name: Environment lots 1 and 2

Description: Orientation: Climate gas accounts: The climate and environmental impact of crushed stone and gravel is significant. The Contracting Authority will evaluate the Tenderer's environmental performance. EPDs or equivalent third-party verified environmental documentation (Type III Environmental Declaration (EN ISO 14025) are used as documentation. The EPDs shall be published on the EPD-Norway or equivalent database and they shall be in accordance with EN 15804:2012+A2:2019 as core rules and NPCR 018:2022 Part B for natural stone products, aggregates and fillers. Tenderers shall fill in the Climate Gas Accounts equivalent for Part I (the area "Gamle Ålesund kommune") (Annex - Climate gas accounts part I) with the following: EPDs shall be enclosed with links in the price form (yellow cells). If an EPD applies for more than one product, it shall be documented for each of the products. Tenderers document the emissions connected with product phase A1, A2 and A3. This can be stated in total (blue cells) or individually (green cells), but shall be as stated in the EPD.
