This contract is divided into lots: no

II.2. Description

II.2.2. Additional CPV code(s)

48222000 Web server software package, 72211000 Programming services of systems and user software, 72212200 Networking, Internet and intranet software development services, 72212222 Web server software development services, 72212224 Web page editing software development services, 72250000 System and support services, 72413000 World wide web (www) site design services, 72415000 World wide web (www) site operation host services

II.2.3. Place of performance

NUTS code: NO0A2 Vestland

Main site or place of performance: Alver Municipality

II.2.4. Description of the procurement

Alver, Aurland, Austrheim, Austevoll, Fedje, Gulene, Masfjorden, Modalen, Osterøy, Samnanger, Vaksdal Municipalities have established a joint ICT operation company, IKT Nordhordland Kommunalt Oppgåvefelleskap (IKTNH).

This enquiry primarily concerns:

- Citizen portal

The purpose of the procurement is to lay the foundation for services and systems related to a new portal and the procurement of a new portal system/platform for the 11 municipalities in the IKTNH collaboration.

The purpose of the procurement is also to gather and consolidate all 11 partner municipalities on a shared CMS platform so that we can deliver good services to citizens using modern technology. The project will simplify the development and publication of information for citizens, where editors can share information and collaborate on challenges - on the same platform.

With the new citizen portal, we want to create a common structure and common content for all shared services. By that we mean a similar menu structure where the names and much of the content are the same for all 11 portals.

With the new platform, we want to solve a current challenge involving themed portals. In order to reach specific target groups, it is important in today's digital media world to be able to

publish information in a format that "breaks" with the traditional design of municipal websites. The ability to control the presentation format will be central to the procurement of a new platform for citizen services.

We focus on clear language and universal design, and this will be consistent in all of our work involving the citizen portals. An important impact goal for citizens is that they should experience the services as more accessible and better explained, so that they can easily do what they came to get done.

The procurement will ensure future-oriented systems for the municipalities in the collaboration, and to the greatest possible extent possible help to simplify and streamline the everyday lives of everyone who uses the system.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

Value excluding VAT: 45 000 000,00 NOK

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Duration in months: 72

This contract is subject to renewal: no

II.2.9. Information about the limits on the number of candidates to be invited

Envisaged minimum number: 2 Maximum number: 4 Objective criteria for choosing the limited number of candidates:

Refer to the tender documentation

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: no

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds: no

II.2.14. Additional information

Refer to the tender documentation

Section III: Legal, economic, financial and technical information
