II.1.3. Type of contract

Services

II.1.4. Short description

Dans le cadre de la modernisation et de la mutualisation de ses moyens techniques, La Monnaie désire renouveler son réseau informatique utilisé par l'ensemble des services administratifs et techniques du théâtre.

Actuellement, la plupart des services techniques (lumière, machinerie, son, vidéo et interphonie) ainsi que le service informatique fonctionnent avec des réseaux IP utilisant une technologie globalement identique.

Ces différents réseaux sont cependant physiquement séparés, utilisent des câblages propres, des équipements de marques différentes, et sont gérés par chaque service de manière indépendante.

Sur base de ce constat, il apparaît nécessaire de mutualiser ces différentes infrastructures afin de gagner en productivité, de minimiser le risque de mauvaise manipulation et de simplifier l'utilisation de l'outil.
