II.1.1. Title

Senja waste treatment plant

Reference number: RFT 302605

II.1.2. Main CPV code

45213270 Construction works for recycling station

II.1.3. Type of contract

Works

II.1.4. Short description

A new incineration plant will be constructed next to the existing incineration plant whilst the existing incineration plant is in operation. The new building will include an administration wing, a waste hall, and a process hall. The existing building will be used for storage and as a workshop.

This is a prequalification. The contracting authority will choose 3 tenderers.

II.1.5. Estimated total value

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.3. Place of performance

NUTS code: NO074 Troms og Finnmark

II.2.4. Description of the procurement

A new incineration plant will be constructed next to the existing incineration plant whilst the existing incineration plant is in operation. The new buildings will include an administration wing, a waste hall, and a process hall. The existing building will be used for storage and as a workshop.

The waste hall will have a supporting system, walls of concrete that are partially cast on site, and partially prefabricated concrete elements as well as a roof construction of prefabricated concrete elements.

The process hall with the incineration plant will have a supporting system of steel or prefabricated concrete, walls of concrete cast on site, partially prefabricated concrete elements, as well as partially sandwich panels.

The administration wing will have 6 floors with a supporting system of prefabricated concrete elements, and will include technical rooms in the basement, on the ground floor, and 5th floor. The stairway and person lift will go from the ground floor to the 5th floor. The rooms in the office areas will be separated by wall of steel pillars and mineral wool covered with plasterboard.

The buildings' total area of use will be approx. 2600 m².

Complete details will be available when the contracting authority has chosen 3 tenderers.

These three tenderers will be able to submit a tender.

This is a prequalification. The contracting authority will choose 3 tenderers.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Duration in months: 18

This contract is subject to renewal: no

II.2.9. Information about the limits on the number of candidates to be invited

Envisaged number of candidates: 3
Objective criteria for choosing the limited number of candidates:

If there are more than 3 tenderers that fulfil the minimum qualification requirements, the contracting authority will rank the tenderers according to the following selection criteria:

The tenderer that has the most relevant assignments will be ranked highest. If tenderers are equal as regards relevant assignments, the contracting authority will look at the tenderer's economic and financial capacity.

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: no

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no
