II.1.4. Short description

la SMIAGE souhaite gérer la mise en oeuvre de travaux relevant de la compétence GEMAPI au travers d'un accord-cadre à bons de commande sur l'ensemble de son territoire permettant d'engager les actions en fonction des possibilités budgétaires et des urgences. Le choix d'un marché à bon de commandes repose sur la possibilité d'apporter une réponse rapide et adaptée aux contraintes environnementales importantes. Cette procédure permet, en outre, une grande réactivité dans la réalisation des travaux notamment, en raison de la forte mobilité de certaines espèces protégées telle que la Typha Minima, et des adaptations aux conditions

hydrauliques des cours d'eau. S'Agissant pour l'essentiel de travaux lourds de confortement d'ouvrages existants, cette procédure permet également d'adapter les solutions à mettre en oeuvre au gré de l'avancement des chantiers et de l'état des ouvrages existants
