Tenders or requests to participate must be submitted to the abovementioned address

I.4. Type of the contracting authority

Body governed by public law

I.5. Main activity

Public order and safety

Section II: Object

II.1. Scope of the procurement**II.1.1. Title**

Procurement of Minerva Consultancy Technical Support Lot 2. Data Quality and exploitation

II.1.2. Main CPV code

72212780 System, storage and content management software development services

II.1.3. Type of contract

Services

II.1.4. Short description

Procurement of Minerva Consultancy Technical Support Lot 2. Data Quality and exploitation
Minerva is a collaboration of currently 23 UK Police Forces that use the Niche RMS as their primary records management system. Historically each Force implemented the system independently, resulting in each deployment being slightly different with different modules utilised and often configured differently. See Section 3 Specification Document for details. Bidders must have previous experience of Niche and must meet the requirements as set out in Section 4 Declarations Standard Selection and Technical Questionnaire.

II.1.5. Estimated total value

Value excluding VAT: 30 000 000,00 GBP

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description**II.2.2. Additional CPV code(s)**

48612000 Database-management system

II.2.3. Place of performance

NUTS code: UK United Kingdom

II.2.4. Description of the procurement

Minerva is a collaboration of currently 23 UK Police Forces that use the Niche RMS as their primary records management system. Historically each Force implemented the system independently, resulting in each deployment being slightly different with different modules utilised and often configured differently.

The Minerva vision describes a future where:

- Police forces across the UK are operating on a super-resilient and secure information technology allowing officers to gain instant access to high quality intelligence and operational information that has no geographical constraints.
- Information freely flows between forces,
- Officers are able to be efficiently deployed across borders,
- Physical resources are better utilised across neighbouring forces, such as custody suites,
- Collaboration is simplified,
- Greater value for money when spending on technology,
- Police forces able to focus on policing,
- Innovation is better exploited.

To achieve this vision a 6 year plan has been approved by Minerva Forces, which requires Forces to cluster into Hubs, such as that already implemented in the East Midlands and City of London and the North West Tri Force collaboration and move from the current 17 platforms the 23 Forces are working from to 6-7 Hubs. Each Hub will have a very similar build and configuration that will facilitate the ability to converge to a single database, build and configuration externally hosted, or the ability for each Force to access other Forces data through a Hub to Hub interNiche solution.

In addition an increased Minerva Delivery Team is being created to take over responsibility for the development of new functionality moving forward utilising a development environment being deployed by Niche Technologies. This team will have responsibility for all Requests for Change (RFC) from writing the specification requirements, getting national sign off, liaising with Niche Technologies and then testing for readiness for a first Force to implement.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

Value excluding VAT: 30 000 000,00 GBP

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Duration in months: 48

This contract is subject to renewal: no

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: no

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds: no
