2.1. Procedure

Title: FED/2020/039-191- Building Resilient & Curaçao - tender for the implementation of the 11th EDF Works contracts

Description: The open international procedure EC-INTPA/BGI/2024/EA-OP/0163 was cancelled because all technically compliant tenders exceeded the available financial resources. A negotiated procedure was subsequently launched by the contracting authority (Government of Curaçao) with the eligible tenderers. The works consist of construction, infrastructure and civil works financed under the 11th EDF programme “Building Resilient and Sustainable Communities in Curaçao”. They cover the construction of new, and the upgrading of existing, infrastructure in four neighbourhoods: Fortuna Ariba Phase 2, Tera Cora, Otrobanda and Sapaté. The infrastructure works include, inter alia, the construction and/or improvement of access roads, sewerage, drainage, street lighting, pavements, above- and below-ground infrastructure to enable the subsequent construction of social housing by Fundashon Kas Popular, sports facilities, a new wastewater treatment plant (WWTP) and associated works, recreational areas, and a multifunctional and childcare centre. The objective is to improve living and sanitary conditions and to reduce flood risk and dust exposure.
