2. Procedure

2.1. Procedure

Title: Market dialogue - System for registering hours and work planning.

Description: Oslo municipality would like to map market participants who have cloud based systems that can meet the municipality's need for a time registration and work planning system. The objective of the mapping is to get an overview of: * What systems are available in the market * The maturity in the market against the municipality's vision * If there are different solution concepts and architectures that can cover the municipality's needs See the attached document for further details on the municipality's need. Interested tenderers are asked to register their interest through the KGV system by submitting a short presentation of their system(s), based on the description of the municipality's overall need and vision. See kgv for the deadline for submission. Oslo municipality can, based on interest, select suppliers for a further market dialogue.
