The procurement is covered by the Government Procurement Agreement: yes

## **II.1.8. Lots**

This contract is divided into lots: no

## **II.1.9. Information about variants**

Variants will be accepted: no

## **II.2. Scope of the procurement**

### **II.2.1. Total quantity or scope**

- a complete engineering design group that shall see to the engineering design services for the building that shall house the process plant for biological food waste,
- the assignment shall be carried out as a "fixed price assignment",
- the contract shall include completed competition documents for a construction contract with an item description in accordance with NS-3420 and the tender document in accordance with NS-3451,
- co-engineering design services shall be carried out with the chosen supplier of the process plant, so that the number of changes in the construction phase are reduced,
- the necessary geotechnical surveys are to be carried out as a basis for the construction contract.

Clarification:

- engineering competence shall be included in the follow up in the construction period. This work will be paid for according to the number of worked hours. The rates are in the price list,
- engineering competence shall be included for coordination with the process supplier in the project phase. The aim of the coordination is to reduce the number of changes in the engineering design basis after the construction and process engineering design services have been completed.

This work will be paid for according to the number of worked hours. The rates are in the price form.

Estimated value excluding VAT:  
Range: between 2 100 000 and 3 100 000 NOK
