Additional information: Workers' compensation insurance is a compulsory and essential form of cover. A longer contract term allows for: • avoiding frequent changes of insurer; • ensuring continuity in claims management; • guaranteeing stable cover terms for policyholders. 2. Long-term claims management Workers' compensation claims can remain open for several years: • medical follow-up; • temporary or permanent incapacity; • potential legal action. Staying with the same insurer facilitates the management and monitoring of these claims. 3. Reduction in administrative costs For an international or multi-site organisation such as the European Schools, a competitive tendering process represents a significant administrative burden: •

collection of claims data; • preparation of the tender specifications; • analysis of bids; • transition to a new insurer. A six-year term allows these costs to be spread over time. 4. Market attractiveness Insurers may be more inclined to offer: • favourable pricing terms; • prevention services; • investment in management tools, when they have visibility over a sufficiently long period.
