Services

Service category No 12: Architectural services; engineering services and integrated engineering services; urban planning and landscape engineering services; related scientific and technical consulting services; technical testing and analysis services

Main site or place of performance: Oslo.

NUTS code NO011 Oslo

II.1.3. Information about a framework agreement or a dynamic purchasing system (DPS)**II.1.4. Short description of the contract or purchase(s)**

The capacity for clean water basins at Oset water treatment plant shall be increased, and in

connection with this, building inspections and condition evaluations of buildings and structures, etc. are required. The buildings and structures that can be affected by construction works are subject to inspections and condition evaluations. It is important to identify the condition, well before the construction works are initiated, and follow-up during the project implementation is necessary. The assignment will include regular structural inspections of buildings in the area during the construction period. Vibration measurements shall be carried out and the tenderer will be responsible for following up and systematising the obtained information. The area also has numerous private GeoExchange Energy systems, and any complaints regarding their functionality in the agreement period must be followed up by the tenderer.

NB: The project is subject to financing in accordance with the municipality investment regime.

II.1.5. CPV code(s)
