The contracting entity is purchasing on behalf of other contracting entities: no

Section II: Object of the contract

II.1. Description

II.1.1. Title attributed to the contract by the contracting entity

Repair/Refurbishment of Oil Storage Tank K1.

II.1.2. Type of contract and place of performance or delivery

Services

Service category No 1: Maintenance and repair services

Main site or place of performance: AES Kilroot Power Limited, Kilroot Power Station, Larne Road, Carrickfergus, County Antrim, Northern Ireland BT38 7LX.

NUTS code UKN03 East of Northern Ireland

II.1.3. Information about a framework agreement or a dynamic purchasing system

The notice involves a public contract

II.1.4. Information about framework agreement

II.1.5. Short description of the contract or purchase(s)

Repair/Refurbishment of an Oil Storage Tank built in the mid to late 1970's to BS 2654 which is currently being used to store heavy fuel oil (HFO). The tank is 60m diameter x 14m high with a 40,000 cubic metre capacity. It is of a fixed cone roof design with a slope of 1 in 5 and a raised cone floor with a slope of 1 in 20.

The tank will be handed over to the successful contractor in a clean state and is currently being inspected to API 653/EEMUA 159. The contractor will be issued with a full report detailing the extent of the repairs upon handover and will be expected to repair the tank to EEMUA 159/ API 653 or equivalent European standard.

The Applicant and/or consortium members must be able to provide/carry out the following:
Scaffolding required for carrying out the necessary repairs as well as any temporary structures used to maintain the structural strength during the repair work;

Repairs to the roof, shell and annular floor as specified in the inspection report;

Repairs to the access stairs, platforms and handrails;

Replacement of nozzles, steam coils and connecting pipe work;

Non destructive testing (NDT) of welding;

Hydrostatic testing of repaired tank;

Installation of lighting and instrumentation;

Full documentation pack including records of all repairs;

Design calculations for all repairs, new nozzles/tank fittings and temporary structures.

The estimated value of the contract is between GBP 800k to GBP 1200k.

II.1.6. CPV code(s)

50514000 Repair and maintenance services of metal containers, 50514100 Repair and maintenance services of tanks, 50510000 Repair and maintenance services of pumps, valves, taps and metal containers, 50500000 Repair and maintenance services for pumps, valves, taps and metal containers and machinery, 44611410 Oil-storage tanks

III.3. Conditions specific to services contracts

III.3.1. Information about a particular profession

Execution of the service is reserved to a particular profession: no

III.3.2. Information about staff responsible for the performance of the contract

Obligation to indicate the names and professional qualifications of the staff assigned to performing the contract: no

Section IV: Procedure

IV.1. Type of procedure

IV.1.1. Type of procedure

Negotiated

Some candidates have already been selected (if appropriate under certain types of negotiated procedures): no

IV.2. Award criteria

IV.2.1. Award criteria

The most economically advantageous tender in terms of the criteria stated in the specifications or in the invitation to tender or to negotiate

IV.2.2. Information about electronic auction

An electronic auction will be used: no

IV.3. Administrative information

IV.3.1. File reference number attributed by the contracting entity

Tender Enquiry K2013 - 06 Repair/Refurbishment OST K1.

IV.3.2. Previous publication concerning this procedure

no

IV.3.3. Conditions for obtaining specifications and additional documents

(except for a DPS)

Time limit for receipt of requests for documents or for accessing documents: ..

Payable documents: no

IV.3.4. Time limit for receipt of tenders or requests to participate

23.12.2013 - 17:00

IV.3.5. Languages in which tenders or requests to participate may be submitted

English.

IV.3.6. Minimum time frame during which the tenderer must maintain the tender

IV.3.7. Conditions for opening of tenders

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: no

VI.2. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

VI.3. Additional information

A Pre-Qualification Questionnaire will be provided through the AES procurement website. Applicants must request a password and username for access to the website. The request for a password and username should be addressed in writing to the Procurement Manager at AES paul.robinson@aes.com. as per details provided in Section 1.1 of this notice.

All information must be completed and returned as instructed in the Pre Qualification Questionnaire and Information Memorandum. The response will be assessed as outlined in the PQQ and Information Memorandum.

Re II.2.1 above, this is an estimated range only. The contracting entity reserves the right to award a contract for a higher or lower amount.

Re IV.3.4 above, requests to participate (i.e. completed pre-qualification documents) should be submitted to Paul Robinson, Kilroot Power Station, Larne Road, Carrickfergus, Northern Ireland, BT38 7LX.

VI.4. Procedures for review

VI.4.1. Review body

VI.4.2. Review procedure

Precise information on deadline(s) for review procedures: The contracting entity will commence standstill period at the point information on the award of the contract is communicated to tenderers. That notification will contain the information specified in Regulation 32 of the Utilities Contracts Regulations 2006 (as amended). Pursuant to Regulation 45D, legal proceedings must generally be started within 30 days beginning with the date when the economic operator first knew or ought to have known that grounds for starting the proceedings had arisen, although a Court can extend the period for bringing proceedings to up to 3 months (after the date when the economic operator first knew or ought to have known that grounds for starting the proceedings had arisen) where the Court considers that there is a good reason for doing so. A longer limitation period of 6 months can apply to any claim for a declaration of ineffectiveness (although this can in certain circumstances, specified in the Utilities Contracts Regulations 2006, be reduced to 30 days). The standstill period, which will be for a minimum of 10 calendar days, provides time for unsuccessful tenderers to challenge the award decision before the contract is entered into. The Utilities Contracts Regulations 2006 (as amended) provide for aggrieved parties who have been harmed or are at risk of harm by a breach of the rules to take action in the High Court of Northern Ireland.

VI.4.3. Service from which information about the review procedure may be obtained

VI.5. Date of dispatch of this notice

17.11.2013
