- VI.1) **Information about recurrence**  
This is a recurrent procurement: no
- VI.2) **Information about electronic workflows**
- VI.3) **Additional information:**  
The estimated contract value for the full possible contract period of 10 years is a range between GBP 34 590 000 and GBP 39 890 000. The estimated range includes assumptions around sharing of some of the third party income. In arriving at the estimate range of contract value the contracting authority has considered without limitation estimated costs (including capital) and revenue associated with the provision of the services, inflation and potential betterment work to be explored as part of the competitive dialogue.  
The vehicle fleet and certain plant and equipment are owned by the contracting authority and have therefore been excluded when estimating the contract value. The contractor may be asked to replace these but this would be using contracting authority capital. Other capital costs are assumed to be funded by the Contractor.  
Economic operators should note that the contracting authority reserves the right to vary, amend and update any aspects of the procurement documents and final details and versions of them will be confirmed to applicants successful in being selected to participate in dialogue.  
The contracting authority reserves the right not to award the opportunity or to award only part (or a different arrangements) of the opportunity described in this contract notice.  
The contracting authority is of the view that TUPE is likely to apply to some staff.  
The competitive dialogue process will be limited and streamlined. The contracting authority does not intend to enter into extensive dialogue.  
The contracting authority reserves the right to omit any part of the services at any stage and to require those tenderers remaining in the process to adjust their bids accordingly.
