I.4. Type of the contracting authority

Ministry or any other national or federal authority, including their regional or local subdivisions

I.5. Main activity

Other activity: Government Institute

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

21/02359 - Hire vessel for acoustic measurements of bluefin tuna - stage 1 prequalification.

Reference number: 21/02359

II.1.2. Main CPV code

60651000 Hire of vessels with crew

II.1.3. Type of contract

Services

II.1.4. Short description

The Institute of Marine Research would like to hire a fishing vessel for 10-14 days and nights for scientific examinations of bluefin tuna. Good acoustic equipment is required, such as split ray echo sounder and fishing sounder.

The mission will be carried out in the period 15 September - 15 October.

The procurement is being made as a dynamic purchasing system. Relevant suppliers will be prequalified and included in the scheme. Tenderers will then be invited to submit tenders for the service (at short notice). This will give tenderers the option to submit a tender without binding themselves for a long period before the mission in question.

The tender documentation concerns the mapping and prequalification of available vessels, with the equipment required for the mission and with interest for applying. It is therefore non-binding as regards submitting a tender for the mission. A separate notice with the exact mission dates that will require a binding tender will be published nearer the start of the mission.

II.1.5. Estimated total value

Value excluding VAT: 2 100 000,00 NOK

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.3. Place of performance

NUTS code: NO Norge

II.2.4. Description of the procurement

The objective is to achieve a good data foundation for assessing how bluefin tuna best can be monitored and possibly quantified during grazing in Norwegian waters.

The mission will focus on different acoustic sonar measurements. It will also include systematic visual observations.

The vessel will not carry out fishing during the mission and requirements for quota or regulations regarding compensation for lost quota will not apply.

The contracting authority will participate with 3-4 persons.

The contract period is 10-14 mission days and nights from 15 September to 15 October 2021.

If the vessel needs to be mobilised and subject to acoustic calibration of the sonar and the echo sounder first, the cruise will start as soon as the vessel is ready.

Mobilisation and demobilisation are not included in the mission period, but must be included in the daily rate for the mission days. Mobilisation of the vessel is estimated to take approx. 24 hours before the mission starts. The mission and hire period will start when the vessel has been mobilised and acoustically calibrated.

II.2.5. Award criteria

Criteria below

Price

II.2.6. Estimated value

Value excluding VAT: 2 100 000,00 NOK

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Duration in months: 26

This contract is subject to renewal: no

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: no

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information**Section IV: Procedure**

IV.1. Description**IV.1.1. Type of procedure**

Restricted procedure
