the abovementioned address

Tenders or requests to participate must be submitted: the abovementioned address

I.2. Type of the contracting authority

Ministry or any other national or federal authority, including their regional or local subdivisions

I.3. Main activity

General public services

I.4. Contract award on behalf of other contracting authorities

The contracting authority is purchasing on behalf of other contracting authorities: no

Section II: Object of the contract

II.1. Description

II.1.1. Title attributed to the contract by the contracting authority

Framework agreement technical consultancy services.

II.1.2. Type of contract and place of performance or delivery

Services

Service category No 7: Computer and related services

Main site or place of performance: Oslo, Norway.

NUTS code

II.1.3. Information about a framework agreement or a dynamic purchasing system

The procurement involves the establishment of a framework agreement

II.1.4. Information about framework agreement

Framework agreement with a single operator

Duration of the framework agreement

Duration in years: 2

In the case of framework agreements, provide justification for any duration exceeding 4 years: Six framework agreements shall be signed, with each framework agreement lasting for two years from when they are signed with an option for an extension for one year at a time, so that the maximum length is not more than four years.

Estimated total value of purchases for the entire duration of the framework agreement

Estimated value excluding VAT:

Range: between 2 000 000 and 10 000 000 NOK

II.1.5. Short description of the contract or purchase(s)

The Government Administration Services (DSS) would like to establish framework agreement (s) within different fields connected to technical consultancy services. The aim is to establish framework agreement(s) that cover DSS:ICT's total need for technical consultancy services connected to the different fields within ICT.

The contracts shall ensure DSS access to consultants who can act as requirement setters and consultants in technical problems connected to the current joint ICT platform and in the project New ICT system for the ministries. The service providers cannot therefore be a supplier or sub supplier of services to DSS for development, implementation, operation or a supplier of equipment for ICT, cf. the Public Procurement Regulations, cf. FOA § 3-8.

A framework agreement shall be signed for technical consultancy services within each individual field. The fields that framework agreements shall be signed for are:

1. Network.
2. ICT platform, information security and system administration.
3. Core services/professional services.
4. Architecture.
5. System approval.
6. Implementation.

Note: To register your interest in this notice and obtain any additional information please visit the Doffin Web Site at http://www.doffin.no/Search/Search_Switch.aspx?ID=311311

II.1.6. CPV code(s)

72000000 IT services: consulting, software development, Internet and support

II.1.7. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

II.1.8. Lots

This contract is divided into lots: yes

Tenders may be submitted for one or more lots

II.1.9. Information about variants

Variants will be accepted: no

II.2. Scope of the procurement

II.2.1. Total quantity or scope

The need for technical consultancy services within the different fields will vary in line with the amount of assignments that DSS:ICT has at any one time. The framework agreement's total value is thus difficult to quantify.

DSS:ICT has no statistics to refer to. DSS:ICT's best estimate for the amount procured for each individual field is 2 000 000 - 10 000 000 NOK per annum. The estimate is made on the basis of the current information on future assignments, which has a large degree of uncertainty and is thus not binding for the awarding authority. The amount procured via the framework agreements, connected to the different fields can therefore be both more or less per annum than the estimate in the tender documents.

DSS will probably start a project during the contract period with the intention of renewing the ICT infrastructure for DSS and the joint ministries. The start of this project depends on the Government Administration Services being awarded resources for the project. The award will probably occur in the first quarter of 2014. The above estimates are based on the Government Administration Services being awarded resources.

II.2.2. Information about options

Options: yes

Description of options: The framework agreements within the stated fields will be signed with one service provider for each field, who shall cover DSS' need for technical consultancy services for a four year period. The framework agreements will be for two years from when they are signed with an option for one year at a time, so that the maximum length is not more than four years.

II.2.3. Information about renewals

This contract is subject to renewal: no

II.3. Duration of the contract or time limit for completion

Information about lots

Lot No: 1

Lot title: Network

1) Short description

See the tender documents.

2) CPV code(s)

72000000 IT services: consulting, software development, Internet and support

3) Quantity or scope
