Laboratory, optical and precision equipments (excl. glasses). The Universities of Liverpool (UoL) and Edinburgh (UoE) have recently been awarded a substantial investment as part of the BBSRC's commitment to Synthetic Biology. We seek to procure two small-scale microbial fermentation instruments, one for each institution, for phenotyping synthetic constructs in microbial hosts. Whilst the specifications of the UoE and UoL instruments will be similar, it is important to note that different optional accessories may be required on each system. This tender will result in 2 separate contracts. One will be with the UoL directly and the other will be with the UoE directly.
