Description

:

By means of this rectification, SURF amends the Dynamic Purchasing System for Online Collaboration Tools and the associated procurement documents. The possibility of expanding the scope of the DPS with new categories was deliberately and explicitly provided for in the original procurement documents. Section 1.4.4 of the Admission Guidelines (review clause) states that the scope and content of the assignment may be changed if a new category is added to the DPS, and section 1.4.2 provides that, in the event of such a significant change, SURF will post a rectification on TenderNed. The addition of the categories Digital Signing and Remote Control & Desktop Software constitutes a logical expansion of the existing scope: both categories concern software solutions that fit well within the overarching term 'online collaboration tools' and serve the same participants and purpose as the existing categories. The nature of the DPS therefore remains unchanged.
