II.2.4. Description of the procurement

TenneT Netherlands, TenneT Germany, Energinet and Gasunie joined forces — in the North Sea Wind Power Hub (NSWPH) consortium — to develop a large scale European electricity system for offshore wind. A new approach to offshore wind connection and grid integration is required, both from a techno-economical as well as from a market and regulatory perspective. This is due to the scale of the offshore wind roll-out required to meet the Paris Agreement climate targets (~150-450 GW), the short time window for realisation (30 years) and the unfolding energy transition as a whole (from fossil to net zero emission).

Based on this Scope of Work the consortium intends to procure support services to assist the consortium for structuring, initiation and managing structured discussions with policy makers to realise a first hub-and-spoke project in the early 2030s.

The overall goal of the services requested is to support the consortium in delivering on the topical agenda – and maximise the success of it — through:

- 1) Development and execution of a structured process to develop political consensus and prepare timely decision making on key issues to facilitate international agreements to support cross-border, cross-sector offshore wind projects after 2030;
- 2) Management of a transparent process of discussion preparation, collection and integration of feedback and preparation for decision making;
- 3) Development of — or managing the procurement of external services for Development of – discussion papers on key topics.

All activities aim to facilitate public commitment in the form of a project-specific Memorandum of understanding (MoU) or intergovernmental agreements between countries.

Please note that this is a negotiated procedure. With the exception of mandatory parts, the tender documents may as a result undergo changes as part of the negotiation process. For this tender the below stated is explicitly identified as subject to negotiation which may lead to changes made by the contracting authority in the negotiation process: discussion of the tenderer's submitted vision statement for the basis of refinement of the scope of work. On behalf of the negotiation meetings the contracting authority will update the coarse scope of work to a more detailed scope of work, with due respect to the principles of equality and transparency.

The applicant must submit a completed ESPD to apply for pre-qualification for this tender procedure. The ESPD for this tender can be found via EU-supply. The ESPD must be completed in EU-Supply and submitted via 'My Response'.

Please note:

- an applicant participating on its own, but relying on the capacities of one or more other entities (e.g. a parent or sister company or a subcontractor), must ensure that the application includes the applicants own ESPD together with a separate ESPD from each of the entities it relies on with a completed part II: 'Information concerning the economic operator' and part III: 'Exclusion grounds' of the ESPD as well as the relevant information regarding part IV: 'Selection criteria' and part V: 'Reduction of the number of qualified candidates'. The ESPD from each of the entities should be duly filled and signed by the entities concerned. Further where an applicant wants to rely on the capacities of other entities, it shall prove to the contracting authority that it will have at its disposal the resources necessary, for example, by producing a commitment by those entities to that effect, which must be submitted as part of the final documentation.
- where groups of economic operators, including temporary associations, participate together in the procurement procedure, a complete separate ESPD for each of the participating economic operators must be submitted. Further the final documentation must include a signed declaration by all parties of the group of economic operators (joint venture, consortium or other) stating that all economic operators assume joint and several liabilities towards the contracting authority for the performance of the contract as a whole.
