I.2. Information about joint procurement

The contract involves joint procurement
In the case of joint procurement involving different countries, state applicable national procurement law:
See question 1.1
The contract is awarded by a central purchasing body

I.4. Type of the contracting authority

Body governed by public law

I.5. Main activity

Other activity: Research & Education Networks

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Open Cloud for Research Environments (OCRE) - IaaS+ Cloud Tender 2020 (lot for Turkey)

II.1.2. Main CPV code

72000000 IT services: consulting, software development, Internet and support

II.1.3. Type of contract

Services

II.1.4. Short description

GÉANT is a not-for-profit organisation. The GÉANT Vereniging is owned by its core membership of 39 European National Research and Education Network (NREN) organisations and NORDUnet, which participates on behalf of five Nordic NRENs.

GÉANT executes this tender procedure on behalf of its members and may also act as a purchasing body on behalf of those members. The purpose of the procurement initiative is to bridge the demand and supply sides for Infrastructure- Platform- and Software as a Service (IaaS+). It is being conducted as an Open Procedure in accordance with the Dutch Public Procurement Act (Aanbestedingswet 2012, revised 1 July 2016).

The Open Procedure is divided in 40 Lots. Each Lot represents 1 Country. Per Lot a number of Frameworks can be awarded.

The combined value of services over the lifespan of the Frameworks agreements over all Lots is estimated at € 600.000.000,-. Estimated value per Lot vary be significantly. See document Vol 0. for more details.

II.1.6. Information about lots

This contract is divided into lots: yes

II.1.7. Total value of the procurement

Value excluding VAT: 600 000 000,00 EUR

II.2. Description

II.2.1. Title

OCRE - IaaS+ Cloud Tender 2020 (lot for Turkey)

Lot No: 38

II.2.2. Additional CPV code(s)

72000000 IT services: consulting, software development, Internet and support

II.2.3. Place of performance

NUTS code: TR Türkiye

II.2.4. Description of the procurement

For this lot GÉANT searches for providers who are able to offer and deliver the following solutions consisting of:

IaaS Infrastructure as a Service

where the consumer is able to deploy and run arbitrary software, which can include operating systems and applications. The consumer does not manage or control the underlying cloud infrastructure but has control over operating systems, storage, and deployed applications; and possibly limited control of select networking components (e.g., host firewalls)

Note: This definition of compute may include server and serverless computing for example virtual machines, FGPA, etc.

This IaaS(+) solution or Solution may (optionally) also offer:

PaaS (Platform as a Service)

The capability provided to the consumer is to deploy onto the cloud infrastructure consumer-created or acquired applications created using programming languages, libraries, services, and tools supported by the provider. The consumer does not manage or control the underlying cloud infrastructure including network, servers, operating systems, or storage, but has control over the deployed applications and possibly configuration settings for the application-hosting environment.

SaaS (Software as a Service)

Complementary Software services utilising Bidders Public IaaS / PaaS resources These complementary software service offerings must utilize (or be based on or directly related to) the Bidders Public IaaS resources (CPU, memory, storage, networking).

Managed services or license based (e.g. VMs with applications pre-installed from a vendor's cloud "marketplace") services and general PaaS and SaaS services available in the marketplace and running in customer tenancies, may be included but these must be a direct consequence of the usage of IaaS services.

One of the main objectives of the OCRE project is to create and further stimulate demand for IaaS+ services in Europe. For this specific objective the EC has made funds available that are to be distributed via the frameworks following this tender. Because of the current absence of demand for IaaS+ services in many Lots of this tender it is difficult to predict contract volumes over a period of 4 years, especially since the stimulation of demand in one of the main drivers behind this tender procedure. At the time of publication it is not known in which countries the EC adoption funds are to be spend.

Therefore it is hard to estimate the total spend for this Lot. The estimated spend is therefore an estimate only. No rights can be derived from the indicated estimated value.

II.2.5. Award criteria

Quality criterion - Name: Service and support / Weighting: 15
Quality criterion - Name: Marketing and adoption Support / Weighting: 25
Quality criterion - Name: Exit Support / Weighting: 5
Quality criterion - Name: Price - additional discounts / Weighting: 5
Quality criterion - Name: Price - additional services / Weighting: 5
Quality criterion - Name: Sustainability / Weighting: 10
Price - Weighting: 35

II.2.11. Information about options

Options: no

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
yes

Identification of the project: This tender is part of the OCRE project. For more information see:
<https://www.ocre-project.eu>. The adoption funds are made available to the OCRE project by
the European Commission under grant number 824079

II.2.14. Additional information

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Open procedure

IV.1.3. Information about a framework agreement or a dynamic purchasing system

The procurement involves the establishment of a framework agreement

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: no

IV.2. Administrative information

IV.2.1. Previous publication concerning this procedure

Notice number in the OJ S: [2020/S 074-176523](#)

IV.2.8. Information about termination of dynamic purchasing system

IV.2.9. Information about termination of call for competition in the form of a prior information notice

Section V: Award of contract

Lot No: 38

Title:

CloudFerro sp. z o.o. (lot for Turkey)

A contract/lot is awarded: yes

V.2. Award of contract

V.2.1.

Date of conclusion of the contract

01/12/2020

V.2.2. Information about tenders

Number of tenders received: 19

The contract has been awarded to a group of economic operators: no
