### **III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers**

List and brief description of conditions: — A HSE self-declaration shall be enclosed with the tender.

— The H1-value is defined as the number of work accidents with absence in relation to the hours worked multiplied by 106. The average H1-value for the last 3 years should be lower than 10. If the H1-value is higher than this, an account shall be given of the developing trend for the H1-value and possibly the F-value, which will express the severity of any high H1-value. Furthermore, a report on whether improvement measures are implemented, and if so, also documentation on the effectiveness of these, should accompany the tender. If the tenderer is a working partnership (supplier group), the requirements apply for each of the participants.

— Tax and VAT certificates shall be enclosed the tender.

— If the tenderer is a working partnership (a supplier group), a declaration of joint and several liability to the General Contractor and third parties must be enclosed with the tender.

Furthermore, a statement should be given for the business form and the composition of the working partnership, including the participants' organisation numbers.

### **III.2.2. Economic and financial ability**

List and brief description of conditions: — It is a requirement that the tenderer's equity is positive. If the tenderer is a working partnership, (supplier group), the requirement applies to each of the participants. Documentation of equity is to be submitted the tender.

— The tenderer's annual average turnover should be at least as large as the annual turnover the contract will generate. Documentation of turnover for the last 3 years should be submitted the tender.

### **III.2.3. Technical and professional ability**

List and brief description of conditions:

— The tenderer shall have experience from work of the same nature and degree of difficulty. Information on such shall be attached with the tender.

— The tenderer is required to show references to relevant contracts that they themselves have carried out in a satisfactory manner. Information about contracts the tenderer has had in the last few years, with names of references at the contracting authority, shall accompany the tender.

— Technical and professional competency and relevant experience is required of the key personnel who will be used for this assignment. Expertise and experience must be documented.

— It is a requirement that the organisation of the execution of the contract is sufficiently staffed and that the tenderer has the capacity and ability to deal with unforeseen circumstances during the contract. A statement of how the tenderer will organise the execution of the contract.

— The tenderer shall be registered in the Norwegian Directorate for Civil Protection Register of electroinstallers and the Norwegian Communications Authority's register of telecommunication installers (Classification: Telecommunication Installers (TiA) + Radio Communication Installers (RiA)). The registration numbers shall be submitted with the tender.
