The notice involves a public contract

II.1.4. Information about framework agreement

II.1.5. Short description of the contract or purchase(s)

The contract is for flood protection for a river stretch of approx. 600 m and the establishment of a new river promenade of approx. 450 m with the accompanying open spaces. The work also includes administration of a joint contract for the delivery and assembly of a new footbridge.

II.1.6. CPV code(s)

45000000 Construction work, 45112000 Excavating and earthmoving work, 45221113 Footbridge construction work, 45223000 Structures construction work, 45223500 Reinforced-concrete structures, 45233161 Footpath construction work, 45233300 Foundation work for highways, roads, streets and footpaths, 45246200 Riverbank protection works

II.1.7. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

II.1.8. Lots

This contract is divided into lots: no

II.1.9. Information about variants

Variants will be accepted: no

II.2. Scope of the procurement

II.2.1. Total quantity or scope

The contract is for flood protection for a river stretch of approx. 600 m and the establishment of a new river promenade of approx. 450 m with the accompanying open spaces. In addition preparation for a future river promenade of 500 m.

Flood protection:

The flood protection work includes raising the river banks to a level that is secure from flooding. This will partly be done by raising the terrain and partly be establishing supporting walls. River slopes shall be secured from erosion. This will partly be done by establishing new pitching and partly by uncovering and — to the degree necessary — repairing/supplementing the existing pitching/stone filling. In addition some sills are to be established in the river. The bottom shall be lowered in the area around the railway bridge by casting a concrete slab under the bridge. The concrete slab shall be plastered at the bottom both upstream and downstream. The work also includes some habitat measures for fish.

C. drawing B21-002.

The main amounts are as follows:

- Demolition of concrete constructions 230 tons.
- Clearing fields approx. 10 000 m².
- Uncovering/excavating approx. 12 000 m³.
- New erosion protection: 5 000 m³.
- New filter layer: 2 800 m³.
- Supplement of old erosion protection to the degree required approx. 500 m².
- Bottom plastering approx. 900 m³.

- Four bottom thresholds approx. 1 050 m³.
- Extension flood mounds: 2 700 m³.
- Concrete/lean concrete approx. 360 m³.

The river promenade:

A promenade shall be established with open spaces, asphalt and lighting down to the area by the old road pub. In addition the remaining area shall be prepared for a future promenade along the river. This involves the development of a base course/gravel cover. A land abutment shall be cast for a new footbridge and some other concrete constructions shall be made. There will also be some demolition work, mainly of concrete constructions. The work also includes administration of a joint contract for the delivery and assembly of a new wooden bridge with a span of approx. 30 m.

The main amounts are as follows:

- Concrete/lean concrete: Approx. 70 m³.
- Excavation: Approx. 3 000 m³.
- Filling: Approx. 700 m².
- Reinforcement layer: Approx. 4 600 m².
- Base course: Approx. 6 900 m².
- Asphalt: Approx. 1 950 m².
- Gravel cover: Approx. 4 500 m².
- Kerbstones: Approx. 440 lm.
- Slabs and paving stones: Approx. 200 m².
- Fences and railings: Approx. 510 lm.
- Revegetation: 1 700 m².
- Bushes, planting and grass: 1 400 m².
- Lighting roads and open spaces: Total approx. 430 lm.
- Lighting in stairs, on the bridge etc.
- Administration of E3.

II.2.2. Information about options

Options: no

II.2.3. Information about renewals

This contract is subject to renewal: no

II.3. Duration of the contract or time limit for completion

Start 27.1.2016. Completion 30.6.2017

Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract

III.1.1. Deposits and guarantees required

Guarantees shall be furnished by a bank, insurance company or other financial institutions, approved by the builder. Accepted security includes the guarantee amount placed in escrow for the benefit of the builder. Interest accrues to the contractor.

See chapter C2-11 in the tender documentation.

III.1.2.

Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

See chapter C2-18 in the tender documentation.

III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

III.1.4. Contract performance conditions

The performance of the contract is subject to particular conditions: yes

Description of particular conditions: — Special provisions for work in and by the Norwegian Railway Administration's infrastructure.

Work shall be carried out under the railway bridge. Cf. the detailed provisions in the chapter on amounts 002 Joint — Barracks and operations.

— Work shall partly be carried out in the river. Precautions shall be taken to avoid spreading unwanted species and hazardous substances, both when moving water or soil and when using equipment or matter that can have been in contact with unwanted species and hazardous substances. See the tender documentation.

III.2. Conditions for participation

III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions: — A HSE self-declaration shall be enclosed with the tender.

— Tax and VAT certificates shall be enclosed the tender.

— If the tenderer is a working partnership, attached to the tender there must be a declaration of joint liability to the General Contractor and third parties.

See the tender documentation.

III.2.2. Economic and financial ability

List and brief description of conditions: — Documentation of equity shall be enclosed with the tender, cf. chapter E2, point 4.2.1, form E2-4.2.1.

— Documentation of any significant changes to the tenderer's equity and solidity compared to the last auditor confirmed accounts must be enclosed with the tender.

— Documentation of turnover for the last 3 years shall be enclosed with the tender, cf. chapter E2, point 4.3.1, form E2-4.3.1.

See the tender documentation.

Minimum level(s) of standards possibly required: It is a requirement that the tenderer's equity is positive.

— The tenderer's annual average turnover should be at least as large as the annual turnover that the contract will generate.

See the tender documentation.

III.2.3. Technical and professional ability

List and brief description of conditions:

— Experience from equivalent work. Reference projects.

— Competence and experience from key persons' competence shall be documented, cf. chapter E2, point 4.3.2, form E2-4.3.2.

See the tender documentation.

Minimum level(s) of standards possibly required:

The contractor or his sub contractors are required to have central certification or have or obtain the competence required for local certification, in accordance with the Building

Regulations 2012 § 13-5 for the following disciplines:

c) Ground work and landscape design development class 3.

d) Concrete constructions cast on site 2.

o) Demolition and environmental clearance development class 2.

See the tender documentation.

III.2.4. Information about reserved contracts

III.3. Conditions specific to services contracts
