Section II: Object

II.1. Scope of the procurement**II.1.1. Title**

Competitive Dialogue about Traffic and Travel Data. Case Area Lillehammer

Reference number: 19/221464

II.1.2. Main CPV code

72314000 Data collection and collation services

II.1.3. Type of contract

Services

II.1.4. Short description

The Norwegian Public Roads Administration wants good quality data on travel habits and traffic along the road network both in and through cities and towns. This is a necessary basis in road planning, urban and urban development, toll investigations, coordinated housing, land and transport planning, mobility planning, as well as business management and planning. Traffic data (including travel times) combined with event data is necessary for operational traffic management and for providing information to the public through various channels. The Norwegian Public Roads Administration now wants to use new data sources to better get information about the travel pattern in and through cities and towns.

II.1.5. Estimated total value

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.2. Additional CPV code(s)

II.2.6. Estimated value

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Duration in months: 12

This contract is subject to renewal: no

II.2.9. Information about the limits on the number of candidates to be invited

Envisaged minimum number: 3Maximum number: 4Objective criteria for choosing the limited number of candidates:

Selection criteria — experience from using data sources in a new way — weighted 70 %.
The tenderer must provide a list of relevant reference projects with a description of the project and contact persons. The list should include information on value/quantity/scope, time, brief description of the assignment, as well as the name of the public or private recipient.
This selection criterion is weighted by 70 %.

In assessing this selection criterion, we will emphasize reference projects that show that the supplier has experience in using known data to gain new knowledge.

In addition to the amount of such projects, we will also consider whether the projects are related to transport or similar areas. It will also be assessed whether the provider has experience with the transport sector and can show that the provider understands the considerations and assessment that the client is facing.

Selection criterion — feasibility — weighted 30 %.

Provider shall have sufficient execution capacity. bidders will be evaluated on whether they are able to show that losing project members does not affect the progress of the project.

Providers must provide the following documentation:

An account of how adequate execution capability should be ensured for this assignment.

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: yes

Description of options:

Option 1: possibility of obtaining corresponding data sets in the same geography for another period.

Option 2: possibility of obtaining corresponding data sets in the same geography for 1 full year.

Option 3: possibility of obtaining similar data sets in other areas (subsequent year?).

Option 4: possibility of obtaining corresponding data sets in the same geography for the same period the following year.

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

The provider must have orderly conditions with regard to payment of tax, employer tax and value added tax.

III.1.2. Economic and financial standing
