Legal type of the buyer: Body governed by public law, controlled by a local authority

Activity of the contracting authority: General public services

2. Procedure

2.1. Procedure

Title: Preliminary project at Borre Church in Horten.

Description: The competition is for the delivery of a preliminary project that provides the possibility of preparing instructions, in particular for masonry and plastering work and renovation of windows at a medieval church. The preliminary project shall form the basis for the contract. The procurement's value is estimated to: NOK 2,566,000 excluding VAT. The volume is an estimate and is not binding for the contracting authority. See the procurement documents for further information. This procurement is considered to have an immaterial impact on climate and the environment, cf. the Regulations §7-9, fifth paragraph. The justification for this is that the procurement concerns consultancy services where the contracting authority is unable to influence climate and environmental impact, as the requirements and criteria that are directed against these elements will not have sufficient connection to the delivery, cf. DFØ's environmental supervisor. Apprentices: The contracting authority has assessed the procurement against the apprentice regulations, cf. the Procurement Act § 7, and concluded that apprentices are not required in this procurement, as the contract's main element does not include work where it is relevant to use labour with vocational or craft certificates, cf. the apprentice regulations § 6 (3). The contracting authority would, however, like to encourage apprentices to get apprentices involved in work where the division of kunsdeling is particularly important.
