2. Procedure

2.1. Procedure

Title: Interactive Immersive Room for Trinity College Dublin

Description: This Interactive Immersive Room is intended to support neurodiverse nursing, midwifery, and medical students in their initial clinical placements through the integration of immersive technology. The immersive simulation environment will be used across multiple disciplines within the Faculty of Health Sciences, including but not limited to Nursing, Midwifery, and Medicine. It will replicate clinical settings such as hospital wards, emergency departments, and operating theatres, enhancing the realism of scenario-based training when used in conjunction with existing computerised patient manikins. This setup is essential to accurately simulate not just patient care, but the environment in which care is delivered—ensuring neurodiverse students are better prepared for real-world clinical situations.
