2. Procedure

2.1. Procedure

Title: Procurement of software, licences and operation on the Esri platform from Geodata AS

Description: Nye Veier AS has over the years used ArcGIS software negotiated by Geodata AS in our business for processing/making map based material. As Nye Veier AS has put considerable effort both economically and resource wise into creating internal map based systems and processing map data, Nye Veier would like to continue to use the ArcGIS software. As a result of this, we would like to procure consultancy services on the ESRI platform from Geodata AS, justified on the basis that Geodata AS is the only actor who offers this as a focused service in Norway. Nye Veier AS sees that ESRI competence can be found at, among other things, consulting engineering companies, but we consider this competence to have a more internal focus to support our own projects and entities more than offering pure competence in the market. The services that Nye Veier would like to procure from Geodata AS during this notice are primarily connected to licences, platform operation, annual follow-up in accordance with the agreed plan, testing of concepts and systems as well as specialised support/training. The contract will be valid for three years from 01.07.2026.

6. Results

Value of all contracts awarded in this notice: 22 000 000,00 NOK

Direct award

:

Justification for direct award: The contract can be provided only by a particular economic operator because of an absence of competition for technical reasons

Other justification: Legal basis: Foa § 13-4 b) no. 2: The procurement concerns services that only a specific supplier can deliver. Based on the contracting authority's (Nye Veier) surveys and knowledge of the market, the contracting authority clearly assumes that Geodata AS is the only supplier who can cover Nye Veier's needs due to being the sole supplier of this licence in Norway. Nye Veier AS has contacted Geodata AS directly without a prior notice/competition and intends to enter into an agreement with Geodata AS for licences and services connected to the development and technical consulting of Nye Veier's ESRI platform, cf. The Public Procurement Regulations § 5-2 (1) a (notice of intent).
