III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

Groupings of economic operators are permitted to tender. The European Parliament reserves the right to request that the grouping awarded the contract assume a specific legal form if this is necessary for satisfactory performance of the contract. The European Parliament may give notice of this requirement at any time during the contract award procedure but, in any event, before the contract is signed.

Tenderers belonging to the economic grouping must specify in detail the existing contractual arrangements or agreements between them.

The grouping of economic operators must provide proof of its legal form in the tender. This legal form may be 1 of the following:

- an entity with a legal personality recognised by a Member State,
- an entity with no legal personality, but which gives the European Parliament sufficient protection as regards contractual interests (depending on the Member State concerned, this may be a consortium or temporary association, for example),
- signature, by all partners, of a type of 'proxy agreement' or equivalent document which will ratify a form of cooperation.

The document submitted must provide proof of the grouping's actual status.

The European Parliament may accept other legal forms not included above on the condition that they guarantee that the parties are jointly and severally liable and are compatible with performance of the contract. However, the European Parliament will expressly refer to the existence of this joint and several liability in the contract to be signed with the grouping of operators. In addition, it reserves the right to request, as part of the contract, the nomination of a joint representative able to represent the members and having, amongst other things, the power to issue invoices in the name of the other members.

Tenders from groupings of economic operators must specify the role, skills and experience of each member of the grouping. Tenders shall be submitted by groupings of economic operators who will be jointly and severally liable for the submission.

Each member of a grouping of economic operators must provide proof that they have access to the contract (eligibility) and the relevant documentary evidence concerning the exclusion and selection criteria. With regard to the selection criteria, the European Parliament may take into account the capacities of other members of the grouping in order to determine whether the tenderer has the resources needed to carry out the contract. In this case, a written commitment will be required from these members stating that they will provide the other members with the resources needed to carry out the contract.
