**III.2.1.**

## **Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers**

List and brief description of conditions: 1 General.

The tenderer is required to have the general qualifications for the offered works. The tenderer must have the necessary expertise and experience, technically, professionally, in organisational terms and administratively.

Information on the tenderer shall be given in the response form in chapter E2. It is important for assessment that the information and documentation is correct and complete.

Please note that the General Contractor can collect information from the Brønnøysund registers and from given references. If substantially incorrect information is given, this may lead to rejection, cf. Public Procurement Regulations (PPR).

§ 11-10 (2) g and § 20-12 (2) g.

The information will be subject to an evaluation based on judgement. The builder will also focus on information from self-evaluations of the tenderer.

Tenderers who do not fulfil the builder's qualification requirements will be rejected, cf. the Public Procurement Regulations § 8-4 and § 17-4. Every single requirement must be met. Each requirement which is not met will result in the tenderer being rejected.

The documentation with the tender will be the basis for the Builder evaluating whether requirements are met. Missing or inadequate documentation in 1 or more criteria can result in the offer being rejected.

### **2. Tax Certificates.**

Tax and VAT certificates, not older than six months, shall be enclosed with the tender. Cf. the Public Procurement Regulations § 8-7, possibly § 17-14.

### **3. Working partnership.**

If the tenderer is a working partnership (supplier consortium), a declaration of joint and several liability to the builder and third-parties must be enclosed with the tender.

A report shall be given for the business form and the composition of the working partnership, including the participants' organisation numbers [Business Register Numbers].

Tenderers must make sure to substantiate how the competence requirements shall be met by the participants. Furthermore, each individual participating company in the working partnership must provide information on their company, as is required in the tender documentation.

Working partnerships will be assessed collectively for all eligibility requirements, except HSE and own equity. Each participant will be individually evaluated for HSE and equity.

#### **4.2.1 Systematic HSE work.**

Tenderers shall have a system and routines that ensure that the HSE work is operated in a systematic manner in accordance with the internal control regulations.

Documentation: Information about systems and routines shall be enclosed with the tender.

### **III.2.2. Economic and financial ability**

List and brief description of conditions: Documentation requirement:

Documentation of equity is to be submitted the tender. Documentation of any significant changes to the tenderer's equity and solvency compared to the last accounts audit must accompany the tender.

Minimum level(s) of standards possibly required: Tenderers are required to have positive equity. If the tenderer is a working partnership (supplier consortium), the requirements apply for each of the participants.

### **III.2.3. Technical and professional ability**

List and brief description of conditions:

#### 4.1 Experience.

Tenderers who are recently established companies and consequently, cannot submit references, must be particularly careful to demonstrate that they have the ability to carry out the contract. The tenderer shall report their company formation and employee expertise. Planned organisation for the assignment and CV s for the key personnel in the project organisation are extremely important. This also applies for companies that merge or are acquired by another company during the tendering process.

##### 4.1.1 Experience from similar works Reference projects.

The tenderer shall have experience from work of the same nature and degree of difficulty.

Documentation requirement:

Information on such shall be attached with the tender. Cf. chapter E2, point 4.1.1, form E2-4.1.1.

Where the tenderer is dependent on a sub contractor in order to be qualified, the tenderer must document for the contracting authority that the tenderer will have authority over the required resources. This can be documented by the tenderer presenting a mutual statement of liability, or equivalent.

##### 4.1.2 Contractors experiences. Reference projects

NPRA and other builders' experiences with the tenderer will be appraised.

The tenderer is required to show references to relevant contracts that they themselves have carried out in a satisfactory manner.

Conditions which will be evaluated are related to, a.:

- documentation of completed quality;
- fulfilment of contracts;
- compliance with provisions and procedures for HSE;
- compliance with provisions for wages and working conditions;
- observance of deadlines;
- follow up during the warranty/claims period.

Documentation requirement:

Information about contracts the tenderer has had in the last few years, with names of references at the contracting authority, shall accompany the tender. Cf. Chapter E2, point 4.1.2, form E2-4.212.

Any assessment forms from previously completed contracts can also be included in the basis for the evaluation.

### **III.2.4. Information about reserved contracts**

#### **III.3. Conditions specific to services contracts**

##### **III.3.1. Information about a particular profession**

Execution of the service is reserved to a particular profession: no

##### **III.3.2. Information about staff responsible for the performance of the contract**

Obligation to indicate the names and professional qualifications of the staff assigned to performing the contract: no
