Norway – Electron microscopes – 1105601 UiO Life Science User Equipment K934.01 Scanning Electroscop

OJ S 115/2026 17/06/2026

Contract or concession award notice – standard regime

Supplies

1. Buyer

1.1. Buyer

Official name: STATSBYGG

Email: frode.aamodt@statsbygg.no

Legal type of the buyer: Body governed by public law

Activity of the contracting authority: General public services

2. Procedure

2.1. Procedure

Title: 1105601 UiO Life Science User Equipment K934.01 Scanning Electroscop

Description: Statsbygg constructs the new Life Sciences Building (LVB) for the University of Oslo and Oslo University Hospital on behalf of the Ministry of Education and Research and South-East Health as the co-contracting authority. The building shall be the workplace for approx. 1,600 employees and 1,600 students. Start up for the excavation and ground work was the second quarter of 2019 and the planned completion is at the end of 2026. Various professional environments shall work multi-disciplinary here to develop new solutions for major challenges within health and sustainability with access to the best and most modern equipment required to carry out world class research, teaching and innovation.

Procedure identifier: 7c4c4c50-3501-4b8c-80ec-60476d0666bc

Previous notice: d5434a14-cc7f-4d16-a929-cad57cb1cf2d-01

Internal identifier: 2025/714

Type of procedure: Open

The procedure is accelerated: no

Main features of the procedure: Statsbygg requests tender offers on K934.01 Scanning electron microscope for use in various research and teaching purposes in material science. The procurement consists of two sub-contracts with one complete scanning electron microscope system each, and tenders can be submitted for one or both sub-contracts. Sub-contract A consists of one complete Entry-level SEM, whilst Sub-contract B consists of one complete FEG ESEM system, alternatively one complete FEG-SEM system with ESEM functionality, as described in the tender documentation. The equipment units shall be used for various purposes in both research and teaching within material science. The equipment units shall be used by the University of Oslo. As a result the contract will be transferred from Statsbygg to the University of Oslo, c.f. Red book point 3. The University of Oslo will enter into the Directorate of Public Construction and Property's rights and obligations in accordance with the contract. This procurement uses the exclusionary provision in PPR § 7-9 (4), as it is clear that the climate and environmental requirements in the procurement will result in a better climate and environmental effect than the use of the award criteria. The climate impact identified for the procurement is connected to the extraction of raw materials for the production and production of the equipment and components thereof. The product requirement levels are

at a level where, according to our knowledge and experience from the market, the market is very unlikely to be able to deliver products that, in a competition, can document a clearly better overall climate and environmental effect. Therefore, in order to reduce the climate and environmental impact of the procurement, there are requirements for the equipment's repairability and updates in accordance with the principles in the waste hierarchy. These requirements will extend the lifetime of the equipment and the following reduce the need for new equipment and the accompanying extraction and extraction of raw materials for production and production. Furthermore, there are clearly defined functionality requirements connected to upgrading options and the offered equipment's flexibility, which together are expected to have the effect that it will minimise, or even exclude, the need to replace the equipment with new equipment in order to achieve future functionality that is currently not available on the market. Statsbygg's assessment is therefore that in order to reduce the climate and environmental impact of this procurement, the exclusion provision in the Public Procurement Regulations § 7-9 (4), as it is clear that the use of climate and environmental requirements has a better climate and environmental effect than the use of the award criteria as described in PPR § 7-9 (2).

2.1.1. Purpose

Main nature of the contract: Supplies

Main classification (cpv): 38511000 Electron microscopes

Additional classification (cpv): 38000000 Laboratory, optical and precision equipments (excl. glasses), 38511100 Scanning electron microscopes

2.1.2. Place of performance

Country subdivision (NUTS): Oslo (NO081)

Country: Norway

2.1.4. General information

Legal basis:

Directive 2014/24/EU

Anskaffelsesforskriften - Cf. the Public Procurement Regulations

5. Lot

5.1. Lot: LOT-0000

Title: 1105601 UiO Life Science User Equipment K934.01 Scanning Electroscop

Internal identifier: 2025/714

5.1.1. Purpose

Main nature of the contract: Supplies

Main classification (cpv): 38511000 Electron microscopes

Additional classification (cpv): 38000000 Laboratory, optical and precision equipments (excl. glasses), 38511100 Scanning electron microscopes

5.1.2. Place of performance

Country subdivision (NUTS): Oslo (NO081)

Country: Norway

5.1.6. General information

Procurement Project not financed with EU Funds.

The procurement is covered by the Government Procurement Agreement (GPA): yes

5.1.10. Award criteria

Criterion:

Type: Cost

Description: Total cost

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 40

Criterion:

Type: Quality

Description: Quality, functionality, service

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 60

5.1.15. Techniques

Framework agreement:

No framework agreement

Information about the dynamic purchasing system:

No dynamic purchase system

5.1.16. Further information, mediation and review

Review organisation: Oslo tingrett

Information about review deadlines: Cf. the Public Procurement Regulations

6. Results

Value of all contracts awarded in this notice: 13 040 771,00 NOK

6.1. Result lot identifier: LOT-0000

Winner selection status: At least one winner was chosen.

6.1.2. Information about winners

Winner:

Official name: JEOL (Nordic) AB

Tender:

Tender identifier: K934.01.01

Identifier of lot or group of lots: LOT-0000

Value of the tender: 2 258 750,00 NOK

Subcontracting: No

Contract information:

Identifier of the contract: K934.01.01 Entry-level SEM

Date of the conclusion of the contract: 25/11/2025

Winner:

Official name: FEI Europe B.V.

Tender:

Tender identifier: K934.01.02
Identifier of lot or group of lots: LOT-0000
Value of the tender: 10 782 021,00 NOK
Subcontracting: No

Contract information:

Identifier of the contract: K934.01.02 FEG-ESEM
Date of the conclusion of the contract: 18/11/2025

6.1.4. Statistical information

Summary of the review requests the buyer received:

Number of complainants: 0

Received tenders or requests to participate:

Type of received submissions: Tenders

Number of tenders or requests to participate received: 3
