**II.1.4. Short description**

Stichting IDH Sustainable Trade Initiative aims to select a digital service provider that can further develop, service and maintain the IDH Salary Matrix online tool.

IDH Sustainable Trade Initiative accelerates and up-scales sustainable trade by building impact-oriented coalitions of front running companies, civil society, governments, knowledge institutions and other stakeholders in several commodity sectors.

The IDH Salary Matrix is developed to support, with practical tools, the efforts that stakeholders may use to bring transparency in supply chains regarding wages. It helps to evaluate how the total remuneration compares to the relevant living wage benchmarks. IDH believes that the only way prevailing wages can be measured accurately is by using tools like the Salary Matrix and that is why we launched it. Through this tool, companies can get a sense of what their own situation is vis-à-vis a living wage benchmark in the regions they produce.
