Internal identifier: 25/243756

Type of procedure: Negotiated with prior publication of a call for competition / competitive with negotiation

The procedure is accelerated: no

Main features of the procedure: All qualified tenderers are invited to submit a first tender. The contracting authority reserves the right to award the contract on the basis of the first tender without negotiations, cf. the Public Procurement Regulations § 23-7 (5). Tenderers are therefore encouraged to submit their best tender by the tender deadline. Implementation of negotiations : The contracting authority will conduct negotiations with 3 tenderers. The contracting authority will reduce the number of tenders if several tenders are received. The

reduction shall be made on the basis of the stated award criteria, so that the best ranked tenders will continue to the next phase, cf. the procurement regulations § 23-11. Any reduction will be made prior to the execution of negotiations. The negotiations are planned to be carried out as one or several separate physical meetings between the contracting authority and each of the tenderers in premises that the Contracting Authority provides. The meetings can be held digitally. Emphasis is put on the fact that the contracting authority cannot, in the face of the other suppliers, reveal solutions or other confidential information that a tenderer gives the contracting authority, without the tenderer's consent, cf. the procurement regulations § 23-10 (2). The negotiations are planned to be carried out in accordance with the provisional plan as stated in the tender documentation chapter A2. The contracting authority reserves the right to hold further negotiation meetings and request further revised tenders if needed. Further information on the implementation of the negotiation will be provided during the tender phase. The purpose of the negotiation meetings is for tenderers to get feedback that will enable them to submit an improved tender. The contracting authority will give tenderers feedback on how the contracting authority has assessed the tenderers' tenders in accordance with the award criteria.

Additional information: Compensation when participating in the competition: Compensation for requests for participation in the competition The contracting authority will not cover costs for preparing the request for participation in the competition. Compensation for participation in the competition Qualified tenderers who are invited to submit a tender, but who are not awarded the contract, will be paid NOK 150,000 excluding VAT for participation in the competition. Payment of compensation is subject to the tenderer submitting a first, revised and/or final tender. Beyond any compensation in accordance with the above section, the tenderer must cover all costs that the tenderer incurred by participating in the competition. The deadline for submitting requests for participation in the competition is: 05.08.2026(12:00) (Norwegian time)

5.1.9. Selection criteria

Sources of selection criteria: Notice

Criterion: Enrolment in a trade register

Description of selection criterion: Tax Certificate Tenderers shall, together with a request for participation in the competition, submit a tax certificate for VAT and a tax certificate issued by a competent body in the tenderer's home country or the country where the tenderer is established. The certificate shall document whether the tenderer has fulfilled his obligations to pay taxes, duties and social security contributions. The certificate must not be older than 6 months calculated from the deadline for submitting a request for participation in the competition or a tender.

Criterion: Enrolment in a relevant professional register

Description of selection criterion: Authority for information on tax and duties (OSA) As a part of the Norwegian Public Roads Administration's struggle against labour crime, including black work and social dumping, a cooperation agreement has been signed between the Norwegian Public Roads Administration and the Norwegian Tax Administration. In connection with this, the Norwegian Public Roads Administration requires a signed authority for all of its suppliers, which gives the Norwegian Public Roads Administration an expanded right to an unlimited number of times to obtain information about the tax and sub-contractor's tax and duty

conditions, as stated in the authority. If the winning tenderer does not already have a valid signed authority registered with the Norwegian Public Roads Administration/contracting authority, the authority shall be signed by the winning tenderer after the award of contract letter has been received, but before the contract is signed. The authorisation form is to be sent to the winning tenderer together with the award letter. Signed authority together with a colour copy of a passport, driving licence or national ID card (the latter for citizens within the EU/EEA /EFTA), shall be returned to the contracting authority as soon as possible and within 3 days. The date of birth can be deleted on a copy of the ID documentation, so that only the date of birth is given. Please note that the signed authority requirement also applies for all of the main service provider's sub-suppliers. The main service provider shall fulfil the contractual obligation downwards in the supplier chain. Prior to contract signing, however, only signed authority is required from the main supplier, unless the sub-contractor is used to fulfil a qualification requirement in the competition. If so, the signed authority must be presented from both the main supplier and the sub-supplier. Signed authority from other sub-suppliers must be submitted and approved by the contracting authority before they can be used in the contract /project. The contracting authority draws attention to the fact that it may be necessary to reject the tenderer and any sub-suppliers who in the award letter are chosen as the winner of the competition, if, after the award, but prior to signing the contract, information will be received from the Norwegian Tax Administration regarding non fulfilment of tax and duty obligations etc. The award cannot, therefore, be considered final until there is an assessment of the obtained information that does not change the contracting authority's award decision. Emphasis is put on the fact that if no authority is signed from the main supplier and any sub-suppliers used in the qualification, this could be seen as a significant reservation to the contract which will result in both the main supplier and any sub-suppliers being rejected from the competition. The template for authorisation for tax and duty information (OSA) has been published in: <https://www.vegvesen.no/fag/veg-og-gate/konkurranser-og-kontraktsdokumenter/generelle-kontraktsdokumenter/>

Criterion: Certificates by independent bodies about quality assurance standards

Description of selection criterion: Requirements of the tenderer's organisational and legal position. Tenderers shall be a legally established company or consist of a community of suppliers who are legally established companies. The requirement also applies to entities that the tenderer will use. Documentation requirement: Tenderers shall, together with a request for participation in the competition, present a certificate from the Register of Business Enterprises or an equivalent certificate for statutory registration in the country where the tenderer or the entities that jointly constitute the tenderer are established, as well as certificates for all supporting entities.

Criterion: Financial ratio

Description of selection criterion: Requirements of the tenderer's economic and financial capacity. 1. Tenderers must have sufficient economic and financial capacity to fulfil the contract. 2. The tenderer's equity shall be positive. 3. The tenderer's annual average turnover for the last three years shall be at least NOK 20 million per annum. Documentation requirement: The tenderer shall, together with a request for participation in the competition, present the following documentation: 1. The tenderer's annual financial statement, annual report and auditor's report for the last three years and recent information (quarterly accounts) that is of importance to the tenderer's fiscal numbers. 2. A brief account of information on economic conditions or losses that are not documented elsewhere and which is required to be documented in accordance with Norwegian and/or international accounting standards. 3. An overview of any recently executed, ongoing or pending tax or public reviews of the tenderer's

activities. 4. An overview of any events of significance that have taken place after the publication of the last revised annual accounts. If a tenderer has a justifiable reason for not submitting the documentation that the contracting authority has required, he can document his economic and financial capacity by presenting any other document of relevance to the company's fiscal figures/economy. Tenderers shall justify why they cannot submit the documentation required by the contracting authority.

Criterion: Technicians or technical bodies for quality control

Description of selection criterion: The tenderer's technical and professional qualifications.

Tenderers shall have sufficient experience of a relevant nature and degree of difficulty from:

- Operation and maintenance of roads
- Winter operations
- Cleaning of road areas and road objects
- Roadworks warning and traffic deviations.

Documentation requirement: The tenderer shall, together with a request for participation in the competition, present the following documentation: An overview of 3-5 contracts that the tenderer has carried out or executes during the last five years calculated from the tender deadline. The overview shall, cf. the form "Response Document for assessment of the tenderer's technical and professional qualifications - Operation and maintenance" (See "General contract documents the Norwegian Public Roads Administration, Various documents), including, among other things, the following for each of the contracts:

- Name of the recipient (contracting authority).
- Contact person /reference person at the contracting authority with contact data (telephone number and email address) and a statement of the person's role at the contracting authority during the contract.
- Date of the delivery.
- The contract's value.
- What work was carried out by the tenderer, including as the main contractor or sub-contractor, and what work was carried out by sub-contractors.
- A description of what the contractual works were about, including relevance to the qualification requirement.

Criterion: Security of supply

Description of selection criterion: Support from other entities for fulfilment of the qualification requirements. The tenderer can, if necessary, rely on other companies' capacity to fulfil the requirements for economic and financial capacity and/or the requirements for technical and professional qualifications. Tenderers shall confirm that they fulfil this requirement when submitting their tender, or together with requests to participate in the competition. In addition, each individual entity that the tenderer will use to submit a separate ESPD form when submitting a tender, or together with requests for participation in the competition. The tenderer shall, together with a request for participation in the competition, present the following documentation proof: Documentation that shows that the tenderer can use the necessary resources for the entities that they will use, for example, a commitment statement from these businesses. The template for the commitment statement is published on: <https://www.vegvesen.no/fag/veg-og-gate/konkurranse-og-kontraktsdokumenter/generelle-kontraktsdokumenter/>. Documentation that shows that the company(s), that the tenderer will use, fulfil the qualification requirement 'the organisational and legal position of the tenderer'. Documentation that shows that the company(s), that the tenderer will use, fulfil the relevant qualification requirements. If a tenderer will use the capacity of other companies to fulfil the requirements for economic and financial capacity, a signed joint and several liability statement must be enclosed. The template for a joint and several liability statement is published on: <https://www.vegvesen.no/fag/veg-og-gate/konkurranse-og-kontraktsdokumenter/generelle-kontraktsdokumenter/>. If a tenderer will use the capacity of other companies to fulfil the requirements of relevant experience, these entities shall carry out the services or the building and construction work that requires such qualifications.

Criterion: Authorisation or membership of a particular organisation needed for service contracts
Description of selection criterion: Suppliers who participate in a working partnership Several tenderers can participate in the competition jointly. The community must see to the necessary documentation that all the qualification requirements are met. The contracting authority will assess each individual supplier in the community against the provisions on rejection, cf. § 9-5 and § 24-2, this except the provision in § 9-5 (1) letter a) and § 24-2 (1) letter a) fulfilment of the qualification requirements, which will be applied to the jointly combined set. Tenderers who participate as a working partnership will be assessed collectively for the qualification requirements, with the exception of the requirements for the tenderer's organisational and legal position, documentation for absence of rejection reasons, tax certificates and authority for information on tax and duties (OSA). The tenderer shall, together with a request for participation in the competition, present the following documentation proof: An account of the group (including each participant's role), each participant's organisation number, address and nationality. The same documentation as individual tenderers shall be provided for each individual tenderer who participate in the group. Declaration of joint and several liability to the contracting authority. The template for a joint and several liability statement is published on: <https://www.vegvesen.no/fag/veg-og-gate/konkurranser-og-kontraktsdokumenter/generelle-kontraktsdokumenter/>. The community of suppliers can, if necessary, rely on other entities to fulfil the qualification requirements, see the point on support from other companies to fulfil the qualification requirements. The contracting authority requires that the tenderer who fulfils the requirements for relevant experience shall carry out the services or the building and construction work that requires such qualifications.

Criterion: Enrolment in a relevant professional register

Description of selection criterion: Particularly on newly established tenderers A tenderer who is newly established and cannot present all the required documentation must be particularly careful to document and substantiate that they still have the prerequisites required to fulfil the contract. It is particularly important that such tenderers can document a sufficiently large workforce for the execution of the contract, including technical and professional qualifications. Newly established tenderers emphasise that it is the tenderer's ability as such to carry out the contract that is assessed, not individual persons' competence in isolation. If a newly established tenderer has experience from contracts, the most relevant contracts from which the tenderer has experience must be completed in accordance with the documentation requirements regarding relevant experience. This is even if the contracts are of such a nature that they do not fulfil the specified requirements. Missing or inadequate documentation in one or more of the requirements can result in the tenderer being rejected. Insufficient or incorrect completed response form can also lead to rejection. Tenderers who have established themselves within a new discipline can also be seen as newly established.

Criterion: Security of information

Description of selection criterion: ESPD Tenderers shall submit the European Self-Declaration Form (ESPD) together with the request to participate in the competition or together with the tender. The provisions on rejection due to conditions at the tenderer are stated in the procurement regulations § 24-2. The European Self-Declaration Form (ESPD) applies as provisional documentation, among other things, so that there are no such reasons for rejection. Further documentation requirements for absence of rejection reasons are in the procurement regulations § 24-7, possibly also § 24-5 (1) if documentation of such measures is relevant. The documentation shall be submitted in accordance with the communication terms stated in chapter B1 and in accordance with the deadline set by the Contracting Authority, in the event that the Contracting Authority requires this. The certificates mentioned in § 24-7 (1)

letter a) and b) must not be older than 6 months calculated from the deadline for submitting a request for participation in the competition or a tender. If the necessary certificates/documents for documenting the absence of rejection reasons are not issued in the tenderer's home country or the country where they are established, or if they do not cover all the rejection reasons mentioned in the procurement regulations § 24-2 (1) letter b, (2) and (3) letters a and b, the completed ESPD form applies as documentation for these conditions. The contracting authority will be able to conduct separate surveys related to the tenderer's activities, including participants in a supplier partnership and supported entities to the tenderer, as well as other conditions that are relevant to assess whether the tenderer can be qualified.

Information about the second stage of a two-stage procedure:

Minimum number of candidates to be invited for the second stage of the procedure: 3

The procedure will take place in successive stages. At each stage, some participants may be eliminated

The buyer reserves the right to award the contract on the basis of the initial tenders without any further negotiations
