II.1.1. Title

Hire of finishing process equipment.

II.1.2. Main CPV code

79800000 Printing and related services

II.1.3. Type of contract

Supplies

II.1.4. Short description

Hire of finishing process equipment.

II.1.5. Estimated total value

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.2. Additional CPV code(s)

30122000 Office-type offset printing machinery, 30122100 Digital offset systems, 30122200 Digital offset equipments, 30210000 Data-processing machines (hardware), 42991000 Paper, printing and bookbinding machinery and parts, 42991110 Book-sewing machinery, 42991210 Offset printing machinery, 42991220 Typesetting machinery, 48970000 Print shop software package, 79800000 Printing and related services, 79810000 Printing services, 79820000 Services related to printing

II.2.3. Place of performance

NUTS code: NO011 Oslo

Main site or place of performance: Repräsentralen, UiO.

II.2.4. Description of the procurement

Due to increased demand, the Repräsentralen needs to renew its machinery.

Repräsentralen needs to hire the following machines:

1. 1 offline (free-standing) binding machine with automatic loading of books.

We currently have 1 online and 1 offline binding machine that binds all glued papers and complete bindings.

Our online binding machine is being discontinued and we would therefore like to replace it with the following:

1 offline binding machine with automatic loading of books.

The wanted volume in the new system is 70 000 books per annum.

There is currently an offline binding machine with manual loading of books with a volume of 50 000 books, this will be in use in the next period.

2. A 'robot feeder' adapted to the current system for pamphlet production.

Repräsentralen produces thousands of pamphlets in various formats each year.

Some are in colour, others are in black-white.

We would like to convert 1 fold and staple unit that we currently have to an offline (free-standing) unit, with automatic sheet feeding (robot feeder). Our current fold and staple unit is a Bourg Booklet Finisher (BDF) and a Bourg Bleeder Maker (BDM).

The BDF is mobile, the BDM is stationary.

3. Cutting ready bindings: 1 offline (free-standing) triangular cutter with a minimum capacity of 100 books (with approx. 100 double sides) per hour.

In order to increase the capacity of automatic cutting of finished books, UiO would like tenders for an offline triangular cutter with a minimum capacity of 100 books per hour.

All three products can be delivered, or tenders can be submitted for each individual product.

The contracting authority will enter into a contract with the tenderer or tenderers with the best tender, independent of whether the tender was for one or more of the services.

Tenderers ought to participate in a site inspection beforehand in order to ensure that the offered equipment fits in with the current equipment.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

Value excluding VAT: 1 500 000,00 NOK

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Start: 15/01/2018 End: 15/01/2021

This contract is subject to renewal: no

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: no

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section III: Legal, economic, financial and technical information
