Title: Purchase of electric Zero-Turn sitting grass mowers

Description: The aim of the procurement is to ensure efficient and cost efficient maintenance of the contracting authority's green areas, at the same time that the municipality implements the transition from fossil driven to electric lawn mowers. The contract is for the procurement of four electric Zero-Turn sitting grass mowers for the graveyards in Oslo municipality, including the necessary number of batteries and chargers. Please note that the estimate is only a guideline and is without obligation for the Contracting Authority. The number of mowers procured will depend on whether the offered price is compatible with the contracting authority's budget. In addition there is an option for the procurement of up to 6 lawn mowers, twice the set of removable and rechargeable batteries, as well as the required number of chargers. The stated meaning represents the maximum extent of the options. The contracting authority reserves the right to trigger the options completely or partly and is not obliged to use the full extent of the option. We would like all vehicles to be delivered as soon as possible after the contract has been signed, and at the latest by 15 September 2026 so that the Contracting Authority's employees have sufficient training and that the equipment is ready for use as soon as possible. The contract has an estimated extent of NOK 2,500,000 excluding VAT.

Based on this, there is a justifiable reason to cancel the competition in accordance with the Public Procurement Regulations § 25-4.
