Section II: Object of the contract

II.1. Description**II.1.1. Title attributed to the contract by the contracting authority**

Telescopic Amfi/Tribune.

II.1.2. Type of contract and place of performance or delivery

Works

Main site or place of performance: Oslo.

NUTS code NO Norge

II.1.3. Information about a framework agreement or a dynamic purchasing system

The notice involves a public contract

II.1.4. Information about framework agreement

II.1.5. Short description of the contract or purchase(s)

A tribune shall be delivered and assembled for the main stage in Dansens Hus in Oslo. The grandstand shall be partly telescopic and partly fixed with an enclosed room beneath the fixed part. This room shall be used for storing technical stage equipment. The stage is used for dance performances. Everything that is delivered must, thus, be appropriate for this type of use with a view to acoustics, stability, line of sight, safety and comfort.

- The tribune shall be 16 m wide, 12 m deep at floor level plus a 2 m overhang at the top level, which is to be fixed to the wall. 1.2 m stairs and bannisters on each side;
- It shall have 11 rows of seats with a minimum of 26 seats, a front row with a minimum of 18 seats and 4 handicapped places/mobile seats and an upper level of 6 m for lighting and audio control and seats on each side;
- 0.5 m height difference between each row;
- 1 m instep;
- The first 6 rows shall be collapsible and the back 6 rows plus the top level are to be fixed on the top of a storeroom, which must also be constructed with solid walls. There does not need to be extra sound insulation between the storeroom and the public area;
- There shall be a corridor of minimum 1.8 m behind and under the tribune for the public;
- The storeroom under the tribune shall be minimum 5.15 m and it shall have access from both sides and from the middle of the back wall;
- The area where the tribune shall be placed has a floating floor based on batten, joists and pine floorboards;
- The chairs shall have an automatic folding mechanism and they shall have average to good seating comfort.

II.1.6. CPV code(s)

45212322 Theatre construction work

II.1.7. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

II.1.8. Lots

This contract is divided into lots: no

II.1.9. Information about variants

Variants will be accepted: no

II.2. Scope of the procurement

II.2.1. Total quantity or scope

- The tribune shall have a floor frame that is fully welded without screws;
- Wheeled trolleys shall be connected to roller bearings for easy and soundless manoeuvring;
- Wheels on the amfi shall be suitable for the flooring so that damages to the floor are avoided. Minimum diameter of wheels 140 mm with a width of 44 mm;
- The amfi shall be delivered with integrated motor operation at the front of the amfi. The amfi must be able to be 'controlled' by separate motors so that damages to fixtures are avoided;
- The tribune shall have an automatic locking system between each step in an open position;
- The amfi shall be adapted so that the fixed part of the amfi can be used without all the rows being extended;

- The point loads on the floor shall not exceed 25 kg / cm²;
- Equipment that comes under the EU directive shall be CE marked.
- Both the construction and the seats of the tribune shall be suitable acoustically for the hall;
- A good and rational system shall be provided for covering the sides and back of the amfi when it is in use;
- The tribune shall have certified railings along the side. They shall be light and simple to lay down/remove before collapsing. The top railing shall be straight;
- Row and seat number;
- Variable LED;
- Fire requirements and escape exits in accordance with the regulations;
- CE certified.

Seats.

- Seat type (Plaza /Granada / Galant) from Fora Form / Jezet or equivalent;
- The seats shall be fixed to the vertical step/step nose for easy maintenance and cleaning. If the step nose system is used, the fixtures shall have a 'cleaning list' for easy cleaning on the horizontal step;
- The seats shall be anchored in the steel construction on the tribune, not just in the wooden cover;
- The amfi and seats shall be equipped with the row and seat number;
- Acoustic qualities of seats are important, any test reports are to be enclosed.

Electro.

All equipment shall be Nemko certified or equivalent and the completed system shall fulfil the current requirements. The installation shall be completed, tested and regulated ready for use.

Extent of the delivery.

The delivery shall include a complete product ready for use. The necessary fixing materials, tools etc. shall be included.

The supplier will be responsible for transporting the delivery into the room. The delivery shall include transport to the building, unloading and transport inside, ready assembled, tested and commissioned.

Training personnel and a user manual in Norwegian shall be included.

Guarantee:

A minimum of 5 years guarantee shall be provided for the amfi and seats.

II.2.2. Information about options

Options: no

II.2.3. Information about renewals

This contract is subject to renewal: no

II.3. Duration of the contract or time limit for completion

Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract
