HRS currently collects household waste using a multi-container system.

In parts of the HRS's area of operation, several shared systems will be established. In new housing projects, they will be able to choose between a partially or fully buried system.

There are roughly 29,000 household subscriptions in the region, and of these, approx. 70 % are in urban municipalities. Of the approximately 21,000 subscribers in the urban municipalities, approx. 60 % have their own containers.
