Service category No 27: Other services

Main site or place of performance: Oslo.

NUTS code NO011 Oslo

II.1.3. Information about a framework agreement or a dynamic purchasing system (DPS)

The procurement involves the establishment of a framework agreement

II.1.4. Short description of the contract or purchase(s)

The department needs to be able to quickly dispose of excavated soil, with varying degrees of pollution, at a certified landfill site for repairing water and sewage leaks and for the

department's maintenance and investment assignments (renovation/alterations/new laying of water and sewage pipelines). VAV would like to be able to deliver 24 hours a day, including Sundays and public holidays.

VAV would like to enter into parallel framework agreements with at least 3 service providers, provided that there are a sufficient number of suitable service providers and tenders. Tenders can be submitted for 1 or several parts of the procurement.

The procurement has an expected value of approximately 40 000 000 NOK, excluding VAT for the entire contract period (2 years + 1 year + 1 year). The procurement is for the reception and treatment of approximately 5 000 tons clean soil (class 1) and 25 000 tons lightly polluted soil (classes 2-3) per annum. It is difficult to estimate the amounts for the other classes.

Historically we have delivered most in classes 2-3, a little less in class 1, a small amount in classes 4-5 and almost nothing in class > 5. The amounts are only meant as information for tenderers and they are not binding for the contract authority. The contracting authority reserves the right to adjust the volume if the need changes.

Section VI: Complementary information

VI.1. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

VI.2. Additional information

The award of contract for the main competition was assessed on the lowest unit price per ton, whilst the award of each individual call-off will be assessed on the lowest total price.

Therefore the ranking the main competition can deviate from the award of individual call-offs, cf. the tender documentation point 3.3.

Regarding part V) award of contract, point V.4) — Contract Value:

The value of each contract is put at 1 NOK. The reason for this is that the form for announcing the result of the competition in Doffin is not suitable for these forms of parallel framework agreements, where the ranking in the main competition can be deviated from for the award of each call-off. The procurement has an expected value of approximately 40 000 000 NOK, excluding VAT for the entire contract period (2 years + 1 year + 1 year). The procurement is for the reception and treatment of approximately 5 000 tons clean soil (class 1) and 25 000

tons lightly polluted soil (classes 2-3) per annum. It is difficult to estimate the amounts for the other classes. Historically we have delivered most in classes 2-3, a little less in class 1, a small amount in classes 4-5 and almost nothing in class > 5. The amounts are only meant as information for tenderers and they are not binding for the contract authority. The contracting authority reserves the right to adjust the volume if the need changes.
