Title: Call for Tender for the Provision of Technical Support Services in respect of Plankton and Larval Identification

Description: The primary purpose of this tender is the provision of expert guidance and identification in respect of phytoplankton, zooplankton and larval identification. BIM is involved in multiple projects requiring those services. However, projects may arise during the course of the contract requiring expertise in other species or water quality parameters. In addition, delivery of workshops and presentations to industry in respect of phytoplankton is necessary in respect of the above work. It is anticipated that at least 4 workshops will be delivered.

Workshops may take place in various locations throughout Ireland. Flexibility will be required from the successful tenderer however BIM will provide adequate notice of the workshops to the tenderer. For further information on this tender competition, please see the accompanying tender documents.
