2. Procedure

2.1. Procedure

Title: 78045 E2026 RA KRE KRF Flow cytometer

Description: The contracting authority invites tenderers to a competition for the procurement of spectral flow cytometers for Radiumhospitalet, the Cancer Clinic, Institute for Cancer Research, Department for Cancer Immunology. The instrument will be used for advanced immunofenotyping, cellular characterisation and functional analyses by using both cell lines and different primary cells from, among other things, healthy donors and patient material. The instrument shall be used in daily operation by a department with approx. 30 employees with varying competence levels within flow cytometry, which works across several projects. Daily use must be expected throughout work days of 8 hours, with periods with extended operations beyond this. This sets high requirements for the instrument's robustness, reliability, user friendliness, degree of automated work flow and low maintenance needs.

Procedure identifier: 66c8b52a-9748-436e-ab35-ecad3ef27dfb

Internal identifier: 78045

Type of procedure: Open

The procedure is accelerated: no

Main features of the procedure: The procurement also includes entering into a framework agreement for the purchase of instrument specific reagents and consumables. The framework agreement is ongoing and applies for as long as at least one instrument is in use. The award of contract for consumables will follow the award of contract for the procurement of the instrument. In addition options shall be offered for equipment/service agreements/servicing. The scope of the agreement is for the procurement of one instrument, with an option for a further instrument and replacement of the control PCs with software as well as accompanying consumables, including washing systems and quality inspections.
