II.1. Description**II.1.1. Title attributed to the contract by the contracting authority**

Contract for the delivery of a Low Pressure Pneumatic Launcher (LPPL) for the Royal Danish Navy.

II.1.2. Type of contract and place of performance or delivery

Supplies

NUTS code DK0 Danmark

II.1.3. Information about framework agreement

The procurement involves the establishment of a framework agreement

II.1.4. Information about framework agreement

Framework agreement with a single operator

Duration of the framework agreement

Duration in years: 15

Justification for a framework agreement, the duration of which exceeds seven years: Due to the optional elements contained in the agreement, cf. clause II.1.5) and II.2.2), it cannot be ruled out that the agreement may be categorized as a framework agreement. Furthermore, DALO has determined that there may be a need for a duration of the agreement for 15 years in total. Such a duration is justified based on the following grounds in particular: The expected service life of the LPPL to be procured is up to 15 years. Furthermore, the option for purchasing 1 additional LPPL may only be exercised within the first 7 years of the duration of the agreement. Beyond this point in time, the purchases under the agreement will only concern the sustainment of the LPPL(s). These purchases will be of a very low value, since — when the warranty period on the LPPL(s) expires — DALO expects to perform most repairs by its own means and to acquire most common spare parts on the basis of other agreements. Thus, in this period, DALO will only purchasing spare parts, repair services, STTE etc. from the LPPL supplier, if this is deemed necessary due to safety concerns and the need for know-how concerning the specific LPPL(s) purchased.

Estimated total value of purchases for the entire duration of the framework agreement

Estimated value excluding VAT:

Range: between 3 600 000 and 4 000 000 DKK

II.1.5. Short description of the contract or purchase(s)

The Danish Defence has since the late 1950's been supplying the naval artillery with flying and sailing target drones located at the Naval Weapon Centre (NWC) at Griben, Sjællands odde (Zealands Point), Denmark. The drones are handled by Værnsfælles Droneafdeling ('VFD', in English 'Joint Aerial Targets Branch'). VFD is currently operating Banshee 600 and Jet 40 Banshee air target drones from NWC but can also launch from outside the NWC as a mobile unit. VFD is flying in excess of 100 missions a year to service both the Navy and the Air Force. At present VFD is using a bungee launcher. This existing launcher has been in service since 1999 and is showing signs of wear and tear. Furthermore, the development of the target drones has caused an increase in weight of the drones and the existing launcher has reached its limits. DALO therefore wishes to acquire a Low Pressure Pneumatic Launcher ('LPPL') as replacement for the existing launcher.

The new launcher will primarily be operated from the NWC, but will also be supporting operations on board the Navy's vessels when needed.

The LPPL supplier shall also be able to deliver spare parts, special tools and test equipment (if any) as well as training and technical support to DALO for a period of 7 years after commencement of the agreement. The agreement contains 2 options for extension, in which each will cover a period of 4 years, meaning that the agreement may have a total duration of up to 15 years, cf. clause II.2.2 and 2.3.

VI.3. Additional information

Pre-qualification Questionnaire:

DALO have prepared a pre-qualification questionnaire which candidates are strongly encouraged to use when submitting their applications. The questionnaire contains questions, forms and templates for providing information etc. in accordance with the requirements in this Contract Notice. However, it is emphasized that it is the sole responsibility of the candidate that the information provided fulfils the requirements.

The questionnaire is available upon request from the contact point stated in I.1) above.

Submission of applications:

Candidates are asked to submit applications for pre-qualification in 3 hardcopies and electronically on a CD-ROM/ USB or equivalent medium in a sealed envelope marked 'LPPL — Application. Must not be opened in the reception'. In case of discrepancy between the hardcopy and the electronic version, the hardcopy shall take precedence.

The application for pre-qualification cannot be submitted by e-mail.

Re. Section III.2.1): Solemn declaration regarding the candidate's payment of taxes and social security contributions.

When submitting the offers (but not the application for pre-qualification), the tenderers must submit a solemn declaration stating to which degree the tenderer has fulfilled its obligations relating to the payment of direct and indirect taxes and social security contributions in accordance with the legal provisions of the country in which the candidate is established and in Denmark in accordance with consolidation act no 336 of 13.5.1997 regarding public payments. A template for the declaration will be provided with the tender documents.

Re. Section III.2): Relying on the capacities of other entities:

According to the EU public procurement directives, a candidate may rely on the economic, financial and/or technical capacity of other entities, regardless of the legal nature of the links with the entities. If a candidate wants to rely on other entities and wishes that the capacity of other entities is taken into account when DALO assesses the suitability of the candidate, the candidate must prove that the other entities will and shall put the relevant resources at the disposal of the candidate.

A template for a declaration from the supporting entity to this effect is included in the pre-qualification questionnaire referred to above.

Non-compliance with formal requirements: DALO reserves the right — but is not obliged — to use the remedies provided for in Section 12 of the Danish statutory order on procedures for the award of public supply contracts, public service contracts and public construction contracts (order no 712 of 15.6.2011) if applications or tenders do not fulfil the formalities of the tender documents.
