no

II.2.14. Additional information

During the contract period, the contracting authority will also establish a contingency contract with a 24/7/365 guard scheme for accidents and emergency situations outside of normal working hours.

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

Norwegian companies: company registration certificate

Foreign companies: registration certificate in a professional register as determined by legislation in the country where the tenderer is established.

III.1.2. Economic and financial standing

List and brief description of selection criteria:

The tenderer must have the financial capacity to implement the contract. The tenderer must be credit worthy without the requirement for security.

Minimum level(s) of standards possibly required:

Credit evaluation/rating, not older than 6 months, and which is based on the last known accounting figures. The rating shall be carried out by an officially certified credit rating institution. If for justifiable reasons, the tenderer cannot prove his financial position in accordance with the above mentioned documentation requirements, the contracting authority will assess other suitable documentation, for example, a declaration from a financial institution of surety.

III.1.3. Technical and professional ability

List and brief description of selection criteria:

Public and private infrastructure for lighting.

The current installations have competence requirements concerning FEF (Regulations on Electrical Supply Installations) as well as NEK (NN). Tenderers must document competence and experience with comparable assignments.

The tenderers must have experience from assignments of an equivalent nature, size/scope and degree of difficulty.

Minimum level(s) of standards possibly required:

Information about education and professional qualifications of the tenderer and the tenderer's administrative management (competence matrix).

An overview of assignments carried out during the last 5 years, together with attestations of satisfactory execution for the 3 primary works. The attestations must state the value, dates and location the work was performed and indicate whether the works were professionally and

properly completed. Information about the reference person must be provided and the builder must be given full authority to contact them.

Information about education and professional qualifications (CV) for the offered project organisation, i.e. project manager assignment manager/site manager/foreman/engineering design manager/QA manager/SHA manager.

Competence must be documented by providing CVs for the personnel intended to serve the contracting authority. Tenderers must document that the intended personnel are authorised installers for this type of work.

Note 1: Due to the nature of the assignment, it is important that executing personnel have local knowledge of the geographical work area this contract will cover.

III.1.4. Objective rules and criteria for participation

List and brief description of rules and criteria:

The tenderer must have sufficient capacity and implementation ability (capability) to ensure smooth and safe delivery and contingency during faults.

A statement of the tenderer's average workforce and the number of employees in the administrative management in the last 3 years (can be the same document as the expertise matrix).

The tenderer must present a statement of how they will secure sufficient capacity for this assignment.

Amongst other things, a staffing plan must be enclosed, stating the number of own employees, hired, sub-contractors, etc. for the equipment, machines, tools, materials or technical equipment that the tenderer has at disposal for the implementation of the contract. With regard to emission-free vehicles, separate transitional provisions have been given in Appendix A Section 3.5, Environment.

Filled in and signed supplier self assessment.

III.1.7. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

NS 8406 Forenklet Norsk Bygge og Anleggskontrakt [Simplified Norwegian Building and Construction Contract] 2009 will apply for the contract, with amendments and additions as described in the contract documents.

III.1.8. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

No, the company must be legally registered and be able to present the company registration certificate.

III.2. Conditions related to the contract

III.2.2. Contract performance conditions

The company must meet the statutory requirements in Norway pertaining to health, environment and safety, as well as have an internal control system.

Tenderers must have environmental competence suitable for the contract work. Amongst other things, there are requirements regarding zero emissions vehicles to be used for the fulfilment of contract work for the municipalities within certain limits and with given transitional arrangements.

III.2.3. Information about staff responsible for the performance of the contract

Obligation to indicate the names and professional qualifications of the staff assigned to performing the contract

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Negotiated procedure with prior call for competition

IV.1.3. Information about a framework agreement or a dynamic purchasing system

The procurement involves the establishment of a framework agreement

Framework agreement with a single operator

IV.1.4. Information about reduction of the number of solutions or tenders during negotiation or dialogue

Recourse to staged procedure to gradually reduce the number of solutions to be discussed or tenders to be negotiated

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: no

IV.2. Administrative information

IV.2.2. Time limit for receipt of tenders or requests to participate

Date: 21/10/2019 Local time: 12:00

IV.2.3. Estimated date of dispatch of invitations to tender or to participate to selected candidates

IV.2.4. Languages in which tenders or requests to participate may be submitted

Norwegian

IV.2.6. Minimum time frame during which the tenderer must maintain the tender

Tender must be valid until: 31/01/2020

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: no

VI.2. Information about electronic workflows

Electronic ordering will be used

Electronic invoicing will be accepted

Electronic payment will be used

VI.3. Additional information

An invitation to participate in the competition is announced in the DOFFIN and TED database through this notice.

The competition will be implemented as a limited competition with a qualification phase where the suppliers submit a request to participate in the competition. Only service providers who fulfil the qualification requirements in the competition will be invited to submit a tender. These qualified service providers will be invited to submit tenders for the contracts. The competition will be implemented through the contracting authority's (Lyses AS') request portal

<https://procurement.lyse.no/ece/>.

VI.4. Procedures for review

VI.4.1. Review body

Official name: Lyse Elnett AS

Town: Gamle Ålgårdvei 80

Postal code: 4325

Country: Norway

E-mail: post@lyse.no

Telephone: +47 97091978

Internet address: www.lyse.no

VI.4.3. Review procedure

Precise information on deadline(s) for review procedures:

In accordance with the Public Procurements Act, other service providers who are not awarded contracts have a deadline to request a temporary injunction against the contracting authority's award decision. This waiting period has a duration of 10 days after notification of the award has been given. Contracting authority's cannot sign a binding contract with selected tenderers until after this deadline has expired.

Any complaints must be dealt with internally before the contract is signed. If the complaint does not proceed, the complainant has the opportunity to appeal the decision to the Public Procurement Complaints Board (KOFA), cf. the Public Procurement Regulations. Please contact the contracting authority's contact person as needed for further information about the case, and the contracting authority will provide feedback as soon as possible.
