Services

II.1.4. Short description

Larvik Municipality will procure snow clearing services as well as other necessary winter maintenance such as gritting and snow clearing by hand for a number of municipal buildings and properties.

All properties/buildings are located in areas.

There are a total of 10 areas being put out to tender in this contract. One of the areas, Area 19, is put out to tender as an option due to its complexity and the need for specialised equipment.

The contest is organised as a tender contest with lots, i.e. one contract per area. This means that separate contests are organised for each lot.

It is not possible for tenderers to submit tender offers for the main contest as a joint tender for all lots; it is only possible to submit tenders for the lots.

It is only possible to award the lot or lots for which tender offers have been submitted. If a tenderer wants to compete for several areas, tender offers must be submitted for all of the relevant areas.
